bonus included when the situation is not as planned the idea of
survival of the fittest is an idea that is taught in many schools the
2023-03-03 31/40

mindset behind it states that the one that is most fit to survive is the one that is going to make it through the peril while this may be true in theory there is a major flaw in the idea it leaves too much up to chance you see survival isn't something that is chance it is something that is entirely based on skill knowledge and your ability to handle difficult situations so if the person who knows these things is the person in the wilderness then they truly are the most fit and are going to greatly increase their own chances of survival do you want to be that person do you want to know that you can handle whatever life throws your way without a shadow of a doubt do you want to know for sure that you are going to be able to take on the world as it comes and survive in any kind of situation you find yourself in if so you have come to the right place this book is going to teach you exactly what you need to do to survive no matter where you are or what kind of situation you find yourself in learn how to use the basics to find the basics and learn how to make and create out of what you have on hand let this book mold you and evolve you let this book make you fittest to survive download your e book 100 thing you need to know about survival when the situation is not as planned by scrolling up and clicking buy now with 1 click button
