Successful Study for Degrees

1995

trigonometry is the branch of science that studies triangles paying particularly
close attention to the measurements between the triangle's points and the angles
of the triangle's three corners trigonometry is used for a variety of fields including
tailoring landscaping and architecture one great reason for people studying
trigonometry to have charts is that there are many different formulas used to
determine angles and measurements having a chart that showed different kinds of
triangles and the formulas associated with them is quite handy
