

Pdf free Caught in the crossfire scotlands deadliest drugs war [PDF]

Scotland's deadliest gang war of a generation the Daniel family versus the Lyons was sparked by a cocaine theft from a house party which unleashed a decade of murderous violence devastation ensued beatings slashings abductions and torture homes were firebombed while children slept witnesses were forced into protection and families ripped apart Michael Lyons 21 was slaughtered with British Army guns in a triple shooting at a North Glasgow garage Daniel enforcer Kevin Gerbil Carroll 29 had 13 shots pumped into him outside an Asda supermarket the desecration of the grave of eight year old cancer victim Garry Lyons marked a sickening low caught in the crossfire were brave residents of Milton Glasgow who opposed their community centre being used as a taxpayer funded gang hut by the Lyons against the odds they won their six year battle which exposed a murky nexus between police officers politicians and the underworld this is the explosive story of how the Daniel Lyons feud engulfed a community and spread from the mean streets into the corridors of power revisiting the young men interviewed in Deuchar's original fieldwork over a decade later this book ascertains how early exposure to gang culture and weapon carrying acts as a path to wider types of offending through empirical insights and policy analysis it considers the evolving nature of gangs knife crime and street violence in Glasgow robbery can be planned or spontaneous and is a typically short chaotic crime that is comparatively under researched this book transports the reader to the streets and focuses on the real life narratives and motivations of the youth gang members and adult organized criminals immersed in this form of violence uniquely focusing on robberies involving drug dealers and users this book considers the material and emotional gains and losses to offenders and victims and offers policy recommendations to reduce occurrences of this common crime drawing on extensive life history interviews with serious violent offenders this book offers a unique socio historical analysis of gang membership and gang evolution in Glasgow Scotland's largest city the book chronicles the lives of young men in and around Glasgow from early childhood to present day and examines the lived experience of family friendship community and crime it demonstrates how street reputations are won and lost and how gang membership is not a single event but an experiential process of offending victimisation consensus and conflict the book follows the young men's descent into knife crime and street violence and the impact of imprisonment on their life chances detailed narratives capture how they individually and collectively transitioned from street violence to profit driven organised crime before eventually disengaging from gangs and desisting from offending the book concludes with an in depth discussion of the evolution of gangs and organised crime in the 21st century and in the inner workings of Scotland's marketplace for illegal goods and services with implications for police practitioners and policymakers a page turner from start to finish Scotland's gang members is a truly unique contribution to knowledge about gangs and crime written to high academic standards but readable and accessible to all this brief sheds light on evolving drug markets and the county lines phenomenon in the British context drawing upon empirical research gathered in the field between 2012-2019 across two sites Scotland's west coast and Merseyside in England this book adopts a grounded approach to the drug supply model detailing how drugs are purchased sold and distributed at every level of the supply chain at both sites the authors conducted interviews with practitioners offenders ex-offenders and those members of the general public most affected by organised crime the research explores how drug markets have continued to evolve accumulating in the phenomenon that is county lines it explores how such behavior has gradually become ever more intertwined with other forms of organised criminal activity useful for researchers policy makers and law enforcement officials this brief recommends a rethinking of current reactive policing strategies first published in 1997 this book sketches the recent history of the panic over cocaine in Britain before reporting in depth research on more than a hundred users in Scotland this group contained all types of users from casual users to heavy users who had cut down without problems to people with multiple drug problems the book considers why some people can give up cocaine and others become addicted it compares British users with those elsewhere in the world showing that the effects are similar everywhere cocaine does not addict most of its users the picture of drug use obtained from addicts in clinics is a distorted one cocaine use in Britain has caused much concern but its extent has been unknown users are still quite affluent but when cocaine hits street level as it is predicted to do in the late 1990s problems are likely to increase two days before Christmas 2015 veteran crime journalist Russell Findlay was the target of a vicious attack on his own doorstep an unknown assailant disguised as a postman hurled sulphuric acid in his face before attempting to stab him with a steak knife despite suffering horrific burns Findlay managed to overcome his assailant before the police arrived in this book he unravels the identity of the man who ordered the hit and reflects on a two decade career during which he has exposed some

of scotland s most violent and dangerous men the result is an unflinchingly realistic portrait of the country s criminal underworld involving not just organised crime s most notorious bosses but also murky behaviour by lawyers politicians policeman and even fellow journalists which has enabled the criminals to flourish as army veteran bill johnstone watched his garage business burn to the ground he was certain the fire had been started deliberately and when the police failed to investigate he complained johnstone then made a shocking discovery an extensive criminal record had been applied to his name he believes this was no accident but a malicious act by a police officer those few keyboard strokes were the catalyst for a high stakes battle that consumed his life what began as police incompetence soon escalated into an extraordinary saga of betrayal conspiracy and cover up this is the incredible true story of his decade long fight for justice in an age where our personal information is stored and shared digitally it could happen to anyone legal highs are without doubt the biggest drug scourge to blight the world since recreational drugs first hit the streets more than 100 years ago their growing menace opens up a new front in the drug war shifting the battle line from the colombian jungles moroccan valleys afghan hills and the winnebagos of new mexico to specially constructed laboratories on the outskirts of shanghai and other cities across the globe but who are the shadowy characters behind the extravagant new drugs such as bath salts and miaow miaow the scientists the rogue boffins the factory sweat shop workers the smugglers the suppliers and ultimately the dealers who sell tens of millions of packets of these substances every week why are so many people from all walks of life now consuming legal highs in such large quantities this book will go inside the lives of all these people to reveal for the first time the true stories behind the emergence of the most deadly narcotics the world has ever seen scots criminal law quote a critical analysis provides a clear statement of the current law for students and practitioners with a theoretical and critical focus this new edition has been updated to reflect changes in the law since the first edition publishe these explanatory notes relate to the psychoactive act 2016 c 2 isbn of the key debates shaping the world to come

Misuse of Drugs and Drug Trafficking Offences 2011 William Kellie B. ca 1700 was born in Galloway, he married Margaret Kilpatrick and they were the parents of seven children. One of his children was Robert Kellie Kelly 1734-1808 who was born in Kirkcaldy, Scotland, and married Mary Gibson. They were the parents of four children, and his family immigrated to America before 1774 and settled in New York where he served in the American Revolution. Their numerous descendants live throughout the United States.

Reports of Cases Before the High Court of Justiciary in Scotland 1906 Charlie Snow took white cocaine goes by many different names but in Glasgow in the early 1980s they called it happy dust. At night, he held parties of the glamorous and wealthy. Cocaine was the new aphrodisiac. A few lines of Charlie and a humdrum party could become an orgy. Hot from the forests of Colombia, Charlie flooded onto the streets of Glasgow and was passed along the line to the cocktail set, highly paid sports stars, and yuppies desperate for kicks and thrills. Behind it all was a man they called the Parachutist, but all too soon the party was over. People became too greedy and the Parachutist was double-crossed. Some of the gang did shady deals with detectives in hotel rooms, others fled to seek shelter in the sun, their reputations destroyed but not their fortunes. The good times might have been over for the happy dust gang but their legacy lives on to this day.

Drug Misuse and the Law 1972-06-18 Key Topics is a short, easy-to-read text that provides basic information about twelve key topics in public health such as diabetes, cancer, smoking, and teenage pregnancy, and how prevention and health promotion should be tackled at community and one-to-one levels. The twelve topics are the must-dos of public health action; they have been selected because they are those addressed in current national public health strategies such as saving lives, our healthier nation, and comparable strategies in Scotland, Wales, and Northern Ireland. Many are the subject of national service frameworks and other national policies and plans; they are often accompanied by targets which health workers are expected to meet. Accessible and useful in clear, plain English, it provides a foundation for further study, planning a work programme, or planning a strategy to meet targets. Practical focus on health inequalities and how to tackle them, and on help for practitioners who work at a community and one-to-one level. Explicit links to national current public health policy and targets. Reflects recommendations based on best practice and evidence of effectiveness. Focuses on a topic framework except for the last two chapters. In contrast to other frameworks for health promotion and public health, attractive layout making full use of bullet points and boxes, simple line diagrams, or tables to illustrate each chapter.

Responding to Drug Misuse 2009-09-10 Social care and health professionals encounter people with drug and alcohol problems on a daily basis but many feel ill-equipped to respond. Although people working across different professions will approach substance users from various perspectives, the knowledge and skills needed to intervene effectively are the same for all, with a strong emphasis on the core skills needed for practice. This up-to-date and accessible text provides a complete guide to working with substance users and their relatives. It covers the nature of problematic use and introduces theories as to why people experience substance problems and why people change. The book moves on to examine a number of effective interventions and how they can be applied, including assessment and care planning, pharmacological treatments, and cognitive behavioural therapy. Distinctively, in addition to chapters on working with specific groups such as adolescents and involuntary service users, it also addresses the implications of parental problems for children and explores ways of helping adults affected by a relative's substance use. Supported throughout by case examples and activities to help apply theories and concepts to practice, this comprehensive text equips readers with the knowledge and skills needed to work with substance users.

Twelve Scots Trials 1913 A multidisciplinary account of the reforms in psychiatry and mental health in Britain during 1960-2010 and their relation to society.

Shades of Deviance 2022-11-04 Medicine remains a highly popular career choice and competition for a place at medical school is incredibly tough. Getting into medical school 2019 entry offers detailed advice and up-to-date information on what you need to do to secure a place on the course of your choice and what career options are available to you when you finish your medical degree. Featuring first-hand case studies from successful students and insider advice from admissions tutors, this guide will lead you through every step of the process, offering practical guidance on choosing the right course and teaching style for you, writing a winning personal statement, securing valuable work experience, admissions tests such as BMAT and the revised UKCAT, key topical medical issues you need to be aware of, how to shine at interview, the range of career opportunities at the end of your course. Founded in 1973, MPW, a group of independent sixth-form colleges, has one of the highest numbers of university placements each year of any independent school in the UK and has developed considerable expertise in the field of applications strategy.
