Shofar 1985 david finkelhor presents a comprehensive vision to encompass the prevention treatment and study of juvenile victims unifying conventional subdivisions like child molestation child abuse bullying and exposure to community violence

Childhood Victimization 2008-03-10 boricua pop is the first book solely devoted to puerto rican visibility cultural impact and identity formation in the u s and at home frances negrón muntaner explores everything from the beloved american musical west side story to the phenomenon of singer actress fashion designer jennifer lopez from the faux historical chronicle seva to the creation of puerto rican barbie from novelist rosario ferré to performer holly woodlawn and from painter provocateur andy warhol to the seemingly overnight success story of ricky martin negrón muntaner traces some of the many possible itineraries of exchange between american and puerto rican cultures including the commodification of puerto rican cultural practices such as voguing graffiti and the latinization of pop music drawing from literature film painting and popular culture and including both the normative and the odd the canonized authors and the misfits the island and its diaspora boricua pop is a fascinating blend of low life and high culture a highly original challenging and lucid new work by one of our most talented cultural critics

Boricua Pop 2004-06-01 human service organizations are faced with environments of volatility uncertainty complexity and ambiguity the covid 19 pandemic other healthcare challenges expectations for evidence based practice usage and racial justice are vivid examples clients and communities deserve effective services delivered by competent compassionate and committed staff members taxpayers donors philanthropists policy makers and board members deserve to have their contributions used to deliver programs that are effective and efficient all these forces create demands and opportunities for organizational change planned organizational change can happen at the level of a program division or an entire organization administrators and other staff will need complementary skills in leading and managing organizational change staff deserve opportunities to have their unique competencies used to achieve organizational goals organizational change involves leading and mobilizing staff to address problems needs or opportunities facing the organization by using change processes which involve both human and technical aspects of the organization

Organizational Change for the Human Services 2021 observational and experimental data pertaining to gravity and cosmology are changing our view of the universe general relativity is a fundamental key for the understanding of these observations and its theory is undergoing a continuing enhancement of its intersection with observational and experimental data these data include direct observations and experiments carried out in our solar system among which there are direct gravitational wave astronomy frame dragging and tests of gravitational theories from solar system and spacecraft observations this book explores john archibald wheeler s seminal and enduring contributions in relativistic astrophysics and includes the general theory of relativity and wheeler s influence recent developments in the confrontation of relativity with experiments the theory describing gravitational radiation and its detection in earth based and space based interferometer detectors as well as in earth based bar detectors the mathematical description of the initial value problem in relativity and applications to modeling gravitational wave sources via computational relativity the phenomenon of frame dragging and its measurement by satellite observations all of these areas were of direct interest to professor john a wheeler and were seminally influenced by his ideas
