Yachting 1999-02 when the corps of discovery left the vicinity of st louis in 1804 to explore the american west they had only sketchy knowledge of the terrain that they were to cross existing maps often contained large blank spaces and wild inaccuracies william clark painstakingly mapped every mile of the journey drawing from both direct observation and from the reports of indians and a few fur traders on their return lewis and clark directed the execution of new maps detailing with remarkable accuracy the features of the country that they had traversed Boating 2002 in exploring the criminalization of corporations this book uses the landmark ford pinto case as a centerpiece for exploring corporate violence and the long effort to bring such harm within the reach of the criminal law corporations that illegally endanger human life now must negotiate the surveillance of government regulators and risk civil suits from injured parties seeking financial compensation they also may be charged with criminal offenses and their officials sent to prison

**Forbes** 2000-03-13 economic issues is organized into four broad issue areas international trade managing the economy regulation and markets these articles were chosen with an eye to exposing readers to a wide range of subjects from workforces issues such as worker exploitation and employee benefits to the future of oil production and the impact of deregulation on the utility industry and beyond to the new global economy with the formation of the european monetary union and other world trade developments description economic issues is a collection of 20 recent articles from the cq researcher winner of the 1999 sigma delta chi award for distinguished service in journalism from the society of professional journalists and one of the most respected sources for research in current issues students interested citizens government and business leaders and others will find in these pages reliable and complete information on a wide range of topics these selections in the tradition of nonpartisan reporting and analysis that is the hallmark of congressional quarterly present readers with balanced accounts of issues on the economic front cq staff writers provide background as well as current analysis a pro and con feature for each article sparks classroom discussion while an annotated bibliography points interested readers to additional sources each selection also incorporates the voices of people in the thick of the policy process people from lobbies nonprofits think tanks academia and government economic issues is organized into four broad issue areas international trade managing the economy regulation and markets these articles were chosen with an eye to exposing readers to a wide range of subjects from workforces issues such as worker exploitation and employee benefits to the future of oil production and the impact of deregulation on the utility industry and beyond to the new global economy with the formation of the european monetary union and other world trade developments the in depth objective and forward looking reporting that characterizes these articles is designed to encourage discussion to help readers think critically and actively about these issues and to facilitate further research

Computerworld 2014-08-07 volume 8 of this prize winning new edition continues the return of the expeditionary party from their base at camp chopunnish on the clearwater river in present idaho back to st louis at the outset they are hindered by deep snow but after returning to obtain help from nez perce guides they make rapid progress so much so that at their travelers rest camp near the site of today s missoula montana the captains divide the party for separate explorations lewis heads east to the missouri river then north along the marias to examine the northern extent of the louisiana purchase clark goes southeast toward the yellowstone to explore that river and to make contact with local indians lewis s party suffers various forms of ill luck grizzlies horse thieves and a violent encounter with a party of piegan blackfeet the only trouble of this kind on the expedition and lewis is wounded by one of his own men in a hunting accident clark s group has its own troubles although not as severe as those of lewis and his men the two parties eventually reunite on august 12 in present north dakota and continue downriver they revisit indian tribes mandans hidatsas arikaras and yankton sioux they had met on the way out and encounter traders and trappers going upriver they arrive back in st louis to a triumphal welcome on september 23

**The Number That Changed My Life** 1996 from the moment admiral richard e byrd jr first left antarctica he knew he would return both the scope of the strange land and the uncharted scientific promise it held were too much to leave behind forever launched during the great depression amid great public skepticism and with funding at its toughest to secure this second antarctic journey proved as daring eventful and inspiring as any byrd ever embarked upon reissued for today s readers admiral byrd s classic explorations by land air and sea transport us to the farthest reaches of the globe as companions on byrd s journeys modern audiences experience the polar landscape through byrd s own struggles doubts revelations and triumphs and share the excitement of these timeless adventures

Consumer Product Safety Review 1965-01-01 from the creation of fast food to the design of cities to the character of our landscape the automobile has shaped nearly every aspect of modern american life in fact the u s motor vehicle industry is the largest manufacturing industry in the world james rubenstein documents the story of the automotive industry which despite its power is an industry constantly struggling to redefine itself and assure its success making and selling cars innovation and change in the u s automotive industry shows how this industry made adjustments and fostered innovations in both production and marketing in order to remain a viable force throughout the twentieth century rubenstein builds his study of the american auto industry with care taking the reader through this quintessentially modern history of production and consumption avoiding jargon while never over simplifying rubenstein gives a detailed and straightforward account of both the production and merchandising of cars we learn how the industry began and about its methods for building cars and the modern american marketplace along the way there were many missteps and challenges the edsel the fuel crisis and the ascendancy of japanese cars in the 1980s the industry met these types of problems with new techniques and approaches to demonstrate this rubenstein gives the reader examples of how the auto industry used to work which he alternates with chapters showing how the industry has reinvented itself making and selling cars explains why the u s automotive industry has been and remains a vigorous shaper of the american economy

*Red Cloud and the Sioux Problem* 1999-02 through assignments for english class seventeen year old james hoff rants against consumerism and his classmates apathy puzzles over his feelings for his ex girlfriend and expresses disdain for his emotionally distant parents
