An Historical and Critical Essay on the Thirty-nine Articles of the Church of England. Wherein it is demonstrated that this clause-'The Church has power to decree Rites and Ceremonies, and Aut[h]ority in Matters of Faith'-inserted in the 20th Article is not a part of the Articles, as they were established by Act of Parliament in the 13th of Eliz. or agreed on by the Convocations of 1562 and 1571. [By Anthony Collins.] 1724 the zero article is a staple element of any description of english article usage from advanced research publications down to student grammars but there has been very little inquiry into its meaning and its other properties Â there are copious amounts of publications dealing with the definite and indefinite articles but none about the zero article Â berezowskiÂ investigates the origin of the concept of the zero article and shows that it has roots both in structural linguistics of the 1940s and earlier historical linguistics structural linguists went on to claim that since the use of articles in english is deemed obligatory the zero article exists but it has no overt form Â looking through earlier attempts at analyzing the meaning of the zero article from jespersen to chesterman berezowski shows how they all fail an answer to theoretical problems of grammaticalization are developed it is shown that english articles have not yet reached a stage in their development where their use has spread to all grammatical environments Â thus a model is developed for determining when there is no article in english Â the new model is tested against a commonly occurring case of zero article using a corpus based approach the myth of the zero article will appeal to academics and students interested in grammar and syntax Â it covers an issue recurrent in the teaching and learning of english as second foreign language and will also appeal to teacher trainers and trainee teachers
