The Nineties 2022-02-08 an instant new york times bestseller from the bestselling author of but what if we re wrong a wise and funny reckoning with the decade that gave us slacker grunge irony about the sin of trying too hard during the greatest shift in human consciousness of any decade in american history it was long ago but not as long as it seems the berlin wall fell and the twin towers collapsed in between one presidential election was allegedly decided by ross perot while another was plausibly decided by ralph nader in the beginning almost every name and address was listed in a phone book and everyone answered their landlines because you didn t know who it was by the end exposing someone s address was an act of emotional violence and nobody picked up their new cell phone if they didn t know who it was the 90s brought about a revolution in the human condition we re still groping to understand happily chuck klosterman is more than up to the job beyond epiphenomena like cop killer and titanic and zima there were wholesale shifts in how society was perceived the rise of the internet pre 9 11
