essay from the year 2018 in the subject business economics business management corporate governance grade 1 3 language english abstract over the years political scientists management scholars and experts philosophers psychologists and even sociologist have tried to pin down the leadership essence and proceeded to develop new styles and theories with the aim of meeting the needs of organizations it is believed that the development of these new insights will make a difference between a successful and unsuccessful leader however leadership remains to be a complicated concept because of the assumption that some individuals have inherent attributes qualities and traits making them better situated to leadership thus leadership may be termed as a natural quality that is possessed by few people whereby natural leaders may use it more effectively by applying the different leadership theories in diverse circumstances on the other hand individuals who do not possess leadership naturally can also become effective leaders through diligent training although there are several theories of leadership which may contain slight differences it is noted that they play significant roles in effective leadership as explored in this essay
