160 000 million american children stay home from school each day to avoid their bully. There is much talk about and many books written on the subject but it seems bullying in schools is getting worse instead of better. Beat a bully without a fight is about preventing bullying and how parents can help their child overcome this problem that can lead to depression, ostracism, and worse rather than punishing children for not getting along. This book advocates for teaching both the bully and the bullied to resolve conflict peaceably. The secret is solving the conflict when the problem is small. After seven long years of dealing with her own bullies, the author brings perspective and understanding to this serious state of affairs that plagues our society.
