this is not a book about french gardens it is the story of a man travelling round france visiting a few selected french gardens on the way owners intrigues affairs marriages feuds thwarted ambitions and desires the largely unnamed ordinary gardeners wars plots and natural disasters run through every garden older than a generation or two and fill every corner of the grander historical ones families marry gardeners are poached political allegiances forged and shattered the human trail crosses from garden to garden they sit in their surrounding landscape not as isolated islands but attached umbilically to it sharing the geology the weather food climate local folklore accent and cultural identity wines must be drunk and food tasted recipes found and compared the perfect tarte tartin pursued none of these things can be ignored or separated from the shape and size of parterre fountain herbaceous border or pottager so this is a book filled with stories and information some of it about french gardens and gardening but most of it about what makes france unlike anywhere else from historical gardens like versailles vaux le vicomte and courances to the kitchen gardens of the michelin chef alain passard there will be grand potagers like villandry and la prieure d orsan and allotments and back gardens spotted on the way monty also celebrates the obvious french associations of food and wine and finds gardens dedicated to vegetables herbs and fruit it is a book that any visitor to france whether gardeners or not will want to read both as a guide and an inspiration it is a portal to get under the french cultural skin and to understand the country in all its huge variety and disparity a little better

in thirty four days it will have been exactly two years to the day since i ve had sex having sex wasn t exactly high on kat carmichael s priority list while her successful bakery was taking off especially since things hadn t been working very well in that department and the last time she and her boyfriend ryan even attempted the act they found it to be physically impossible resulting in pain and disappointment for kat instead of sunshine and orgasms with just over a month until their four year anniversary kat calls for a break in her relationship with ryan encouraging him to see other people while she throws herself into physical therapy yet even with the well intentioned but wildly inappropriate attempts at help from her best friends kat quickly discovers that a solo mission may not be the best approach fortunately physical therapist ben clearly the shop s best looking customer volunteers to help out strictly as a friend of course but as the line between love and friendship begins to blur kat stands to lose much more than a functioning set of lady bits if she can t figure out what to hang on to and what to let go

### **Awkward Politics**

the increased use of digital tools for political activism has triggered heated debates about the effectiveness of digital campaigns for political change and feminist causes while technology s immediacy and transnational reach have broadened the potential impact of activism it has at the same time complicated the goals materiality and consumption of feminist actions in awkward politics carrie smith prei and maria stehle suggest that awkwardness offers a means of engaging with twenty first century feminist activism by accounting for the uncertainty of popfeminist moments and movements its sometimes illegible meanings affects and aesthetics by investigating transnational media ranging from popfeminist performance art music street activism blogs and hashtags to literature film academic theory and protests the authors demonstrate that viewing activist art through the lens of awkwardness can yield a nuanced critique by developing awkwardness into a theoretical tool for intervention a key concept of feminist politics and a moving target this innovative study dramatically alters the ways in which we approach activism its forms movements and effects it also suggests a broad range of applicability from social movements to the academy breaking new ground through the intersections of technology consumerism and the political in popfeminist work awkward politics highlights the urgency of feminist politics and activism
