 reprocessable nitrile rubber enabled by thermoreversible Feb 02 2022 2024521 covalently cross linked rubber is indispensable in many fields such as automotive tires gaskets and sports equipment it is of great significance to endow rubber with an efficient recycling performance herein a tetrafunctional nitroxide radical cross linked agent qt was synthesized and introduced into nitrile rubber nbr to prepare

2024 mad design fellows announced mit news Dec 03 2021 [] [] 2024[5][21] pulling from different corners of design they explore solutions in fields such as sustainability health architecture urban planning engineering and social justice on may 1 mad announced the 2024 cohort of design fellows at the mit museum sofia chiappero mcp student in the department of urban studies and

rational rock salt phase engineering of nickel rich layered Nov 01 2021 [] [] 2024[5][15] ni rich layered cathodes promise high energy density yet suffer from dramatic rate and capacity decay on cycling which is originated from chemo mechanical failures with fast growth of electrical and ionic insulating rock salt phase on the surface apart from general approaches of applying inert coating lay

programmable singlet oxygen battery for automated Oct 01 2021 [] [] 2024[5][16] the efficacy of photodynamic therapy is hindered by the hypoxic environment in tumors and limited light penetration depth the singlet oxygen battery sob has emerged as a promising solution enabling oxygen and light independent $1o_2$ release however conventional sob systems typically exhibit an always on $1o_2$

engineering giant arup named as target of 25 million Aug 30 2021 [] [] 2024[5][17] an engineering giant behind apple s hq and the sydney opera house lost 25 million when scammers tricked an employee with a deepfake of a senior exec alexandra bacon may 17 2024 3 14 am pdt

chlorogenic acid linoleic acid fortified wheat resistant Jul 30 2021 [] [] 2024[5][13] this study aimed to investigate alterations in gut microbiota and metabolites mediated by wheat resistant starch and its repair of gut barrier dysfunction induced by a high fat diet hfd structural data revealed that chlorogenic acid ca linoleic acid la functioned through noncovalent interactions to form a more
