the natural topography of the city stretching from iacopo sannazaro s poetic evocation of the campania landscape to giambattista vico s approach in which he anchors human civilization to the existential confrontation with natural forces with the open sea the rocky coastline and the menacing presence of vesuvius the image of naples more than any other city in early modern times is associated in the collective imagination with the forces of nature even the populace was interpreted as a force of nature in this volume art literature and science historians investigate the convergence of culture and nature in a unique geographic context in 1854 the originator of viennese operetta franz von suppé created the music for a new play by leonhart wohlmuth it is part of a forgotten art form where the music underlines and accompanies the action on stage in a similar way to a soundtrack for a film while the music works very well in the present day the real challenge is to modernise the script to make it relevant and interesting for a modern audience originally written in early 19th century german the script sounds outdated and received a less than positive reception at its original outing its dialogue is more in keeping with opera and required significant work to make it palatable to a contemporary audience the project on which this book is based maintained the music by suppé as indicated in the manuscript score while translating and adapting the german script by wohlmuth
