Recommended Books in Spanish for Children and Young Adults, 1996 Through 1999 2000 péter hajdu examines the cultivation of the classics as an intellectual framework and crucial ingredient of the western aspect of hungarian national identity this book approaches the relationship of modern hungarian culture to classical heritage from the various viewpoints of identity politics education translation history scholarship and its impact on literature when the hungarian nation building project developed ideas of national identity it necessarily incorporated the historical narrative according to which the hungarians arrived at their current homeland in the middle ages and only later did it adopt european culture the duplicity of a mostly imagined asian pagan barbaric or nomadic culture and a western christian civilized identity deeply rooted in european culture has played and continues to play a role in the hungarian discourse hajdu also studies the gradual disappearance of classics from the hungarian school education since the 19th century which has been accompanied by fervid political debates however over this period translations of classical texts paradoxically became more frequent and popular with the decline

of a classical education even though fewer readers had access to the original texts despite this change the translation strategies tended to remain school bound the knowledge of classical literature still leaves traces on hungarian literature which hajdu explores using examples from nineteenth century novels and contemporary poetry this book sheds light on a topic of classical reception that has remained largely unexplored in this part of europe but one which has an incredibly rich history culture and literary tradition
