a magisterial account of our time by a distinguished historian walter lafeber prize winning author of the clash global change has accelerated at an unprecedented pace in the last half century the trajectory of change points in different directions with the world growing at once more interconnected and more fragmented commerce and migrations television and the world wide suggest a story of growing interconnection while at the same time the proliferation of nation states and the divisions rooted in religion race and material inequality tell of separation and conflict david reynolds s brilliant history captures both themes and grounds them vividly in the people and events of the last fifty years reynolds captures the great political events the cold war the chinese revolution independence movements vietnam and the fall of the soviet union and broader developments economic and population growth the spread of cities vast technological change genetic manipulation and the creation of a digital world carefully avoiding an encyclopedic approach reynolds integrates these themes into a narrative with authority vision and style a volume in the global century series books by outstanding scholars on the history of the world in the twentieth century general editor paul kennedy these essays explore both literal and metaphorical crossings of the globe addressing the cultural significance of maps paintings travel writing tourist manuals cultural identities island gardens and other topics in order to lend insight to our perception of global culture during the long 18th century accompanying cd rom contains t he complete two volume set of the global century page 1 of cover a panoramic global history of the nineteenth century a monumental history of the nineteenth century the transformation of the world offers a panoramic and multifaceted portrait of a world in transition jürgen osterhammel an eminent scholar who has been called the braudel of the nineteenth century moves beyond conventional eurocentric and chronological accounts of the era presenting instead a truly global history of breathtaking scope and towering erudition he examines the powerful and complex forces that drove global change during the long nineteenth century taking readers from new york to new delhi from the latin american revolutions to the taiping rebellion from the perils and promise of europe s transatlantic labor markets to the hardships endured by nomadic tribal peoples across the planet osterhammel describes a world increasingly networked by the telegraph the steamship and the railways he explores the changing relationship between human beings and nature looks at the importance of cities explains the role slavery and its abolition played in the emergence of new nations challenges the widely held belief that the nineteenth century witnessed the triumph of the nation state and much more this is the highly anticipated english edition of the spectacularly successful and critically acclaimed german book which is also being translated into chinese polish russian and french indispensable for any historian the transformation of the world sheds important new light on this momentous epoch showing how the nineteenth century paved the way for the global catastrophes of the twentieth century yet how it also gave rise to pacifism liberalism the trade union and a host of other crucial developments college learning for the new global century published through the leap liberal education and america s promise initiative spells out the essential aims learning outcomes and guiding principles for a 21st century college education it reports on the promises american society needs to make and keep to all who seek a college education and to the society that will depend on graduates future leadership and capabilities foreword p vii the skills creativity and research developed through higher education are major factors in any society s success in creating jobs and advancing prosperity universities and colleges play a vital r le in expanding opportunity and promoting social justice the papers in this book reflect the main objective of a conference held in june 2007 at ahlia the biological transformation of modern times the foundations of the modern global economy reorganizing the global economy localization and globalization the great explosion new world dis order high modernity revolt and refusal transformative modernity democracy and capitalism triumphant written by a diverse group of authors who are experts in their field the sixth edition of this widely used text continues to meet the needs of professors and students alike its clear prose weaves basic factual information and sufficient analysis to create a user friendly text for students while still allowing for professors personal interpretation the first chapter introduces five key topics whose influence on the various developments and events in the 20th century are chronologically discussed throughout the text additions to this edition include further analysis of earlier periods based on recent scholarship colourful new quotations new suggested sources more emphasis on social economic cultural and women s history and an updated chapter on the post cold war world more analysis less detailed and refined prose combine with these new and retained features to make this a thorough balanced and accessible source for this past century s history global companies are facing a new pressure to develop leaders with global mindsets the war for managerial talent has never been so intense companies and business schools need not only to fine tune practices and models but redesign current paradigms and create more effective and

sustainable ways to invest in leadership development in the 21st century global economy emerging nations will provide almost half of the potential customers for western goods and services concludes international business expert jeffrey a rosensweig drawing on extensive research rosensweig contends that firms with truly global strategies will profit from the untapped resources of emerging markets and at the same time improve the living standards of the world's poor dismissing the doomsday scenario that so-called third world nations will continue to be mired in poverty he argues persuasively that western executives must break out of the mindset that profitable ventures can only be found within the triad of the united states europe and japan rosensweig reminds us that american exports to emerging nations have tripled since 1986 he projects that by the year 2010 the world will contain six great regional economies four of them in asia and that three of every eight middle class consumers will reside in the developing world in clear nontechnical language he explains how executives can identify trends of globalization and apply them to business strategy particularly to what he calls a time-phased global strategy for synchronizing a firm's investments with the progress of emerging middle classes winning the global game demonstrates that adopting a global perspective now is a win-win strategy that links people and profits it will be important reading for all multinational executives and managers in firms which are going global the chapter on 21st century personal career strategy will appeal particularly to the aspiring global executive

2030 within 20 years possibly far sooner china will have the world's largest economy that will powerfully impact you your job your company your economic future and your country in the chinese century oded shenkar shows how china is restoring its imperial glory by infusing modern technology and market economics into a non-democratic system controlled by the communist party and bureaucracy shenkar shows why china's accelerating growth differs radically from predecessors such as japan india and mexico and how it will lead to a radical restructuring of the global business system discover why the us is most vulnerable to china's ascent how china's disregard for intellectual property creates sustainable competitive advantage and how china's growth impacts every global business and consumer above all shenkar shows what you must do to survive and prosper in the chinese century cheap labor millions of high skilled professionals how china will sustain dominance in low-tech industries as it enters high-tech realms building tomorrow's toyotas and sonys faster and cheaper chinese multinationals learning from joint ventures preparing to lead leveraging hong kong ta scott sernau's clear writing and vivid examples help readers to understand their role as global citizens part one begins with the challenges of inequality in life chances wages and work and gender and education inequality lies at the heart of many global problems part two focuses on conflict and violence from crime to politics terrorism to war with an emphasis on connections of violence to social justice and human rights part three looks at sustainability and the problems of urbanization crowding and environmental destruction each chapter begins with a global encounters vignette that provides examples of college students encountering striking situations and being asked to think about broader implications though people across the globe lead seemingly very different lives the author emphasizes interconnectedness with discussions of the local-global connection chapters explore social problems by considering key theories both classical and contemporary and by providing enough history to understand the background of contemporary issues the book's approach is both multinational and multidisciplinary chapters conclude with positive possibilities for global change while problems are substantial many people are working to make a difference and this book offers an invitation to participate in addition to key ideas and for review and discussion every chapter concludes with making connections that offers reliable websites for more information and making a difference which provides options for involvement these sections can form the basis for assignments for further study or for class or group projects includes articles on international business opportunities a deeper understanding of the grand history of mission leads to a faithful expression of god's mission today from the beginning god's mission has been carried out by people sent around the world from abraham to jesus the thread that weaves its way throughout scripture is a god who sends his people across the world proclaiming his kingdom as the world has evolved christian mission continues to be a foundational tradition in the church in this one volume textbook edward smither weaves together a comprehensive history of christian mission from the apostles to the modern church in each era he focuses on the people sent by god to the ends of the earth while also describing the cultural context they encountered smither highlights the continuity and development across thousands of years of global mission this anthology offers a cutting edge perspective on how development has shaped the history of the modern world stephen j macekura and erez manela have gathered together leading historians to examine development on the international regional and national levels as well as local manifestations of development initiatives and transnational organizing on behalf of alternative approaches themes include the relationship between empire and development the role of international institutions the influence of the cold war decolonization and post-colonial development strategies reform and resistance to development development and global health and the ecological effects of development the development century examines how ideas and discourses about development have shaped its practices on the ground explores the ways in which policymakers and experts attempted to implement development through specific institutions and policies and analyzes development initiatives and their effect of local environments and people the century of science a multicultural international team of authors examine the global rise of scholarly research in science technology engineering mathematics and health fields providing insightful historical and sociological understandings of the ways that higher education has become an institution

that shapes science and society illuminating the new york times book review named one of ten books to read this april by the bbc what is the future of fiction in an age of globalization in the global novel acclaimed literary critic adam kirsch explores some of the 21st century s best known writers including orhan pamuk chimamanda ngozi adichie mohsin hamid margaret atwood haruki murakami roberto bolano elena ferrante and michel houellebecq they are employing a way of imagining the world that sees different places and peoples as intimately connected from climate change and sex trafficking to religious fundamentalism and genetic engineering today s novelists use 21st century subjects to address the perennial concerns of fiction like morality society and love the global novel is not the bland deracinated commercial product that many critics of world literature have accused it of being but rather finds a way to renew the writer s ancient privilege of examining what it means to be human this book updates the original global journalist 1998 volume with new data adding more than a dozen countries and providing material on comparative research about journalists that will be useful to those conducting their own studies reimagining india brings together leading thinkers from around the world to explore the challenges and opportunities faced by one of the most important and least understood nations on earth india s abundance of life vibrant chaotic and tumultuous has long been its foremost asset the nation s rising economy and burgeoning middle class have earned india a place alongside china as one of the world s two indispensable emerging markets at the same time india s tech savvy entrepreneurs and rapidly globalizing firms are upending key sectors of the world econ omy but what is india s true potential and what can be done to unlock it mckinsey company has pulled in wisdom from many corners social and cultural as well as eco nomic and political to launch a feisty debate about the future of asia s other superpower reimagining india features an all star cast of contributors including cnn s fareed zakaria mukesh ambani ceo of india s largest private conglomerate microsoft founder bill gates google chairman eric schmidt harvard business school dean nitin nohria award winning authors suketu mehta maximum city edward luce in spite of the gods and patrick french india a portrait nandan Nilekani infosys cofounder and chairman of the unique identification authority of india and a host of other leading executives entrepreneurs economists foreign policy experts jour nalists historians and cultural luminaries these essays explore topics like the strengths and weaknesses of india s political system growth prospects for india s economy the competitiveness of indian firms india s rising international profile and the rapid evolution of india s culture over the next decade india has the opportunity to show the rest of the develop ing world how open democratic societies can achieve high growth and shared prosperity contributors offer creative strategies for seizing that opportunity but they also offer a frank assessment of the risks that india s social and political fractures will instead thwart progress condemning hundreds of millions of people to enduring poverty reimagining india is a critical resource for read ers seeking to understand how this vast and vital nation is changing and how it promises to change the world around us this major global history of the twentieth century is written by four prominent international historians for first year undergraduate level and upward using their thematic and regional expertise the authors cover events in europe asia the middle east africa and the americas from the last century and beyond among the areas this book covers are the decline of european hegemony over the international order the diffusion of power to the two superpowers the rise of newly independent states in asia and africa the course and consequences of the major global conflicts of the twentieth century this second edition is thoroughly updated and includes extended coverage of european integration the rise of supra governmental organizations and the global war on terror a support website provides supplementary exercises questions and tutor guidance this text introduces readers to topics in sociocultural anthropology viewed through the lens of contemporary ethnography leading experts from academia government and industry present information ideas programs and initiatives that accelerate the creation of smart cities fast systems and global networks why are some countries rich and others poor colonialism globalization bad government gender inequality geography and environmental degradation are just some of the potential answers to this complex question using a threefold framework of the west the south and the natural world shaping the developing world provides a logical and intuitive structure for categorizing and evaluating the causes of underdevelopment this interdisciplinary book also describes the social political and economic aspects of development and is relevant to students in political science international studies geography sociology economics gender studies and anthropology the second edition has been updated to include the most recent development statistics and to incorporate new research on topics like climate change democratization religion and prosperity the resource curse and more this second edition also contains expanded discussions of gender financial inclusion crime and police killings and the middle east including the syrian civil war this innovative teaching text on united states foreign policy interprets the foreign policy decision making process through the lens of political debate and exchange it introduces historical developments and theories of u s foreign policy and engages students in the politics of the foreign policy process through innovative learning exercises features critical analysis of contemporary trends in u s foreign policy including debates in the obama administration foreign policy and the 2012 presidential election and reaction to the arab spring written by an award winning teacher scholar in international relations with extensive experience in both policy making and pedagogy views foreign policy decision making through the lends of political debate offers fresh perspectives on historical developments as well as surveying prominent foreign policy theories includes new and innovative participatory learning exercises exploring a range of themes including executive legislature conflict contains extensive teaching and learning applications including discussion questions document templates worksheets suggested readings and links to web resources throughout

edwin h sutherland is widely identified as the single most important and influential criminologist of the twentieth century he is especially well known for his path breaking criminology textbook first published in 1924 his promotion of a sociological and scientific approach to the understanding of crime and its control his theory of differential association and his work over his final ten years on white collar crime a term he is credited with having introduced this book explores the contemporary meaning of edwin sutherland and considers why criminologists today should continue to engage with his work what can and should sutherland mean to future 21st century criminologists those working in the field say between 2021 and 2050 or some one hundred years after the 1921 to 1950 period that encompassed sutherland s criminological career which dimensions of sutherland s work have best survived the march of time and which are most likely to and deserve to survive going forward making the case that sutherland is important to both mainstream and critical criminologists to positivistic criminologists and those who study crimes of the powerful this book is essential reading for both students and scholars interested in exploring the enduring legacy of this key thinker in criminology from west indian sugar and bottles of southeast asian arrack to french red wines english felt cloth and mediterranean lemons many global wares ended up in the scandinavian borderlands during the late eighteenth century this book explores how and why these goods came to be there and analyses what smuggling can reveal about the emergence of global trade the formation of the nation state and the development of consumer society in europe s northernmost outskirts this book shows that the global underground was ubiquitous in the nordic countries and fundamentally altered them politically economically socially and culturally through re evaluating the role of smuggling the book complements and challenges established historical accounts about state building market dynamics consumer culture and ideas and identity it also offers a roadmap for how to think about illegal global trade and how to approach this notoriously difficult research field by integrating illegality the book aims to show how an illicit web entangled often overlooked peripheral territories with traditional portals of globalisation and proposes a novel take on early modern globalisation and the paths to modernity in the european hinterlands to achieve this a wide variety of sources are used including court records administrative sources diaries ambassadorial correspondence and maps in various languages including swedish finnish norwegian english and french this book makes a significant contribution to the literature on economic history the first wave of globalisation the study of shadow economies and scandinavian history more broadly

in june 2007 the fraser institute held a conference in toronto ontario titled immigration policy border controls and the terrorist threat in canada and the united states the chapters in this volume which arose from this conference raise fundamental questions about weaknesses in canada s current immigration policies and procedures the contributors to this volume identify serious threats and weaknesses in the immigration asylum and border regimes from both canadian and american perspectives the authors are not opposed to effectively managed immigration or allowing genuine refugees who pose no security threat to enter the country through a well vetted system all believe that the vast majority of immigrants pose no danger but are simply seeking to improve their freedom and prosperity nevertheless given the stakes raised by terrorist attacks the entry of even a small number of potentially dangerous individuals should warrant major attention and policy review book jacket like a giant oil tanker the world is slowly turning the rapid growth of economies in asia and the global south has led to a momentous shift in the world order leaving much of the traditional literature on globalization behind multipolar globalization emerging economies and development is the perfect guide to these ongoing 21st century transformations combining engaging and wide ranging coverage with cutting edge analysis the rise of china and other emerging economies has led to the emergence of a new geography of trade new economic and political combinations new financial actors investors and donors and weaker american hegemony this interdisciplinary volume combines development studies global political economy sociology and cultural studies to ask what this growth means for domestic and global inequality and examines the role of multipolarity in the reshaping of globalization renowned globalization scholar jan nederveen pieterse deftly guides the reader through the development of globalization in the west and the east explaining key topics such as the 2008 crash trends in inequality the changing fortunes of the brics and the role of governance and democracy accessible and insightful this book will be an essential guide for both students in the social sciences and for professionals and scholars seeking a fresh perspective approaching the issue of internationalisation from an institutional perspective and specifically designed as a source of information and references this new handbook will be a valuable tool for any higher education institution the handbook is published as a loose leaf edition consisting of a basic edition and regular supplements hard copy plus cd rom all collected in a ring folder a must have for those involved in developing and implementing internationalisation strategies and measures including university executives and international office managers it will also be an invaluable source of references for a larger group of policy makers interested in the internationalisation issue in a wider european context the handbook focuses on the practical and operational key issues of relevance to european higher education placing them in the context of global developments and overarching policy processes in addition it will facilitate the discussion regarding the goals of internationalisation at the institutional level and their implementation editor expert writers share reflections on their experience and explore issues for the future of the international baccalaureate middle years programme the issues raised are of interest and relevance to those with

responsibility for myp teaching learning and administration in schools and will provoke interest in the programme amongst those considering its adoption this book has been nominated for the mountbatten award for best book in the maritime media awards 2021 the routledge companion to marine and maritime worlds 1400 1800 explores early modern maritime history culture and the current state of the research and approaches taken by experts in the field ranging from cartography to poetry and decorative design to naval warfare the book shows how once traditional and often euro chauvinistic depictions of oceanic mastery during the early modern period have been replaced by newer global ideas this comprehensive volume challenges underlying assumptions by balancing its assessment of the consequences and accomplishments of european navigators in the era of columbus da gama and magellan with an awareness of the sophistication and maritime expertise in asia the arab world and the americas by imparting riveting new stories and global perceptions of maritime history and culture the contributors provide readers with fresh insights concerning early modern entanglements between humans and the vast unpredictable ocean with maritime studies growing and the ocean s health in decline this volume is essential reading for academics and students interested in the historicization of the ocean and the ways early modern cultures both conceptualized and utilized seas
