pisces moon the dark arts of empire is a non fiction book about what writer william burroughs called the backlash and bad karma of empire set against the author s month long trip to london vietnam and thailand in early 1991 it tells how the american empire was created by rapacious businessmen backed by a murderous military establishment media moguls who designed a relentless psychological warfare campaign that glorifies warriors who are programmed to kill on command and clerics who contrived a religious justification for imperialism the subordination of women and the establishment of chattel slavery pisces moon shows how these mythmakers led by cia drug traffickers after world war two destroyed much of southeast asia it also tells how the myth of american greatest has come home to roost and is now manifest as the vainglorious militant christian nationalist movement that wishes to establish a right wing dictatorship pisces moon argues that the survival of american democracy and the world depends upon people being able to distinguish between material evidence and substantiated facts on the one hand and conspiracy theories religious beliefs and supremacist myths on the other
