zimbabwe is a landlocked country in southern africa bordered by south africa to the south botswana to the west zambia to the north and mozambique to the east the country has a population of approximately 14.4 million people with the majority living in rural areas zimbabwe gained its independence from british colonial rule in 1980 and has been governed by the zimbabwe african national union patriotic front zanu pf since then zimbabwe's economy has faced many challenges in recent years including hyperinflation a shortage of foreign currency and political instability agriculture is the largest sector of the economy with the majority of the population engaged in subsistence farming the country is also rich in minerals such as gold platinum and diamonds despite its economic struggles zimbabwe remains a popular tourist destination known for its wildlife natural beauty and historical landmarks such as great zimbabwe a 15th century stone city that is now a unesco world heritage site africa is a vast continent home to many millions of people its history stretches back millennia and encompasses some of the most ancient civilizations in the world modern africa boasts a rich cultural heritage the legacy of many diverse influences from all around the world reflecting the central role africa plays in world history encyclopedia of african peoples provides extensive information about africa's cultures history geography economics and politics it provides an invaluable overview of the whole continent region by region ethnic group by ethnic group nation by nation personality by personality sections include africa today the peoples of africa culture and history the nations of africa biographies past to present glossary index critical toponymy place names in political historical and commercial landscapes contains a selection of double blind peer reviewed papers from the 4th international symposium on place names that took place 18-20 september 2017 in windhoek namibia these papers present current thinking on how the critical turn in social sciences is manifested in toponymic research not only locally but also internationally as such it includes research on place names from south africa namibia zimbabwe austria slovenia central america and even the former czechoslovakia the contributions show that the etymology of place names are never purely linguistic social political commercial and other factors influence the giving use and adaptations of these linguistic and cultural artefacts furthermore given their high symbolic content place names also serve as political and commercial currency place names are therefore important symbolic markers in preserving or changing cultural identities and in marking or facilitating socio-political changes and relations critical toponymy showcases the many ways in which the representational potential of place names can be deployed in different contexts scholars as well as practitioners in toponymy and sociolinguistics will find this an illuminating read now organized alphabetically the information atlas has been completely redesigned to provide much easier access to its wealth of geographic data includes a 16 page section of country by country facts full color maps art whether you're exploring the ruined city of great zimbabwe camping under the night sky in the kalahari or looking for shipwrecks on namibia's skeleton coast this essential guide is packed with all the information you'll need the authoritative and in depth coverage of all three countries to president george w bush pm tony blair and the european union lift zimbabwe's sanctions current affairs the sheer volume of information available on the internet is both incredible and intimidating the author shows how to find what you want in the vastness of cyberspace now extensively revised to reflect the dramatic growth of the internet this edition explores the new generation of graphically based search tools designed for the world wide web and the internet it also features updated coverage of traditional unix search tools you'll not only find out how each tool works but learn research strategies to make each search as valuable as possible current geographical publications cgp is a non profit service to the scholarly community initiated in 1938 by the american geographical society of new york beginning in 2006 the format changed to include the tables of contents of current geographical journals the journal titles listed link to web pages or pdf scans of the current issue's contents vols for 1967-70 include as a section who's who of rhodesia mauritius central and east africa change 21st century 1st 50th anniversary 1908-60 14th 100th anniversary 2007 1950 1922 11 1 kadokawa

Introduction to Zimbabwe

2013-11-26

Zimbabwe is a landlocked country in southern Africa bordered by South Africa to the south, Botswana to the west, Zambia to the north, and Mozambique to the east. The country has a population of approximately 14.4 million people, with the majority living in rural areas. Zimbabwe gained its independence from British colonial rule in 1980 and has been governed by the Zimbabwe African National Union Patriotic Front (ZANU-PF) since then. Zimbabwe's economy has faced many challenges in recent years, including hyperinflation, a shortage of foreign currency, and political instability. Agriculture is the largest sector of the economy, with the majority of the population engaged in subsistence farming. The country is also rich in minerals such as gold, platinum, and diamonds. Despite its economic struggles, Zimbabwe remains a popular tourist destination known for its wildlife, natural beauty, and historical landmarks such as Great Zimbabwe, a 15th-century stone city that is now a UNESCO World Heritage site.

Encyclopedia of African Peoples

2019-03-01

Africa is a vast continent home to many millions of people. Its history stretches back millennia and encompasses some of the most ancient civilizations in the world. Modern Africa boasts a rich cultural heritage, the legacy of many diverse influences from all around the world, reflecting the central role Africa plays in world history. *Encyclopedia of African Peoples* provides extensive information about Africa's cultures, history, geography, economics, and politics. It provides an invaluable overview of the whole continent, region by region, ethnic group by ethnic group, nation by nation, and personality by personality. Sections include Africa Today, the Peoples of Africa, Culture and History, the Nations of Africa, Biographies, Past to Present, Glossary, and Index.

Critical Toponymy

2002-12-26

Critical Toponymy: Place Names in Political, Historical, and Commercial Landscapes contains a selection of double-blind peer-reviewed papers from the 4th International Symposium on Place Names that took place 18-20 September 2017 in Windhoek, Namibia. These papers present current thinking on how the critical turn in social sciences is manifested in toponymic research, not only locally but also internationally. As such, it includes research on place names from South Africa, Namibia, Zimbabwe, Austria, Slovenia, Central America, and even the former Czechoslovakia. The contributions show that the etymology of place names are never purely linguistic; social, political, commercial, and other factors influence the giving, use, and adaptations of these linguistic and cultural artefacts. Furthermore, given their high symbolic content, place names also serve as political and commercial currency. Place names are therefore important symbolic markers in preserving or changing cultural identities and in marking or facilitating socio-political changes and relations. *Critical Toponymy* showcases the many ways in which the representational potential of place names can be deployed in different contexts. Scholars as well as practitioners in toponymy and sociolinguistics will find this an illuminating read.

Encyclopedic World Atlas

1999

Now organized alphabetically, the *Information Atlas* has been completely redesigned to provide much easier access to its wealth of geographic data. Includes a 16-page section of Country by Country Facts, full-color maps, art.

Zimbabwe, Botswana & Namibia

2006

Whether you're exploring the ruined city of Great Zimbabwe, camping under the night sky in the Kalahari, or looking for shipwrecks on Namibia's Skeleton Coast, this essential guide is packed with all the information you'll need. The authoritative and in-depth coverage of all three countries.

Finding It On the Internet

2000

The sheer volume of information available on the Internet is both incredible and intimidating. The author shows how to find what you want in the vastness of cyberspace. Now extensively revised to reflect the dramatic growth of the Internet, this edition explores the new generation of graphically based search tools designed for the world wide web and the Internet. It also features updated coverage of traditional UNIX search tools. You'll not only find out how each tool works, but learn research strategies to make each search as valuable as possible.
