Accounting is the process of recording, summarizing, and reporting in terms of money the transactions and events which are in part at least financial in nature, and in part at least of a financial character, and interpreting the results thereof for the organization concerned. (IASB, 2010)

The accounting process involves the identification, measurement, recording, and communication of financial information. The identification of financial transactions and events is the first step in the accounting process. The measurement of these transactions and events is the second step. The recording of these transactions and events is the third step. The communication of these transactions and events is the fourth step.

The accounting process is a continuous process. It involves the identification, measurement, recording, and communication of financial information on an ongoing basis. The accounting process is a key component of the financial reporting process. It provides the information that is used to prepare financial statements.

The accounting process is a complex process. It involves the use of accounting principles and standards. The accounting process is a key component of the financial reporting process. It provides the information that is used to prepare financial statements.

The accounting process is a key component of the financial reporting process. It provides the information that is used to prepare financial statements.
