tourism as well as practitioners and managers working in the field

Annual Review of Nursing Education 2003

while the great scientists of the past recognized a need for a multidisciplinary approach today schools often treat math and science as subjects separate from the rest this not only creates a disinterest among students but also a potential learning gap once students reach college and then graduate into the workforce cases on research based teaching methods in science education addresses the problems currently facing science education in the usa and the uk and suggests a new hands on approach to learning this book is an essential reference source for policymakers academicians researchers educators curricula developers and teachers as they strive to improve education at the elementary secondary and collegiate levels

Annual Review of Nursing Education, Volume 1, 2003 2003-02-24

since the first mooc was launched at the university of manitoba in 2008 this new form of the massification of higher education has been a rollercoaster ride for the university sector the new york times famously declared 2012 to be the year of the mooc however by 2014 the number of academic leaders who believed the model was unsustainable doubled to more than 50 while the mooc hype has somewhat subsided the attitudes and anxieties of this peak time can still be seen influencing universities and their administrations this is the first volume that addresses massive open online courses from a post mooc perspective we move beyond the initial hype and revolutionary promises of the peak mooc period and take a sober look at what endures in an area that is still rapidly growing albeit without the headlines this book explores the future of the mooc in higher education by examining what went right what went wrong and where to next for the massification of higher education and online learning and teaching the chapters in this collection address these questions from a wide variety of different backgrounds methodologies and regional perspectives they explore learner experiences the move towards course for credit innovative design transformations and implications of the mooc in turn this book is valuable reading for students and academics interested in education elearning globalisation and information services

Sharing Expertise In Teacher Ed 1999-04-01

the basic structure of universities and colleges in ontario one focused primarily on expansion and greater access and put in place in the 1960s is outdated the system is now large enough the eligible age group for entering post secondary studies is shrinking and participation rates are as high as they are likely to go in rethinking higher education george fallis argues that policy makers should shift their attention away from growth and towards improving and diversifying the range of programs available and creating new means of program delivery he calls for increases in honours undergraduate programs and polytechnic education and envisions a group of research intensive universities responsible for doctoral education the existing design fallis contends neglects the specific needs of graduate education and research layering it on top of a system designed for undergraduate education in addition there is disconnection between ontario s ministry of training colleges and universities and the research missions of the universities and colleges themselves fallis recommends that ontario establish a system for documenting and assessing the quality of research published at universities thought provoking and thoroughly argued rethinking higher education provides a detailed design for higher education in the twenty first century

Hearings 1970

this book explores the concept of the best loved self in teaching and teacher education asserting that
the best loved self is foundational to the development of teacher identity growth in context and
learning in community drawing on the work of joseph schwab who was the first to name the best loved self
the editors and their contributors extend this knowledge further through the collaboration of their
group of teacher educators known as the faculty academy who have been involved in examining teacher
education for over two decades
