

# Free pdf Answers protocol definitions and default ports cisco (PDF)

setting an interface back to defaults cisco community tcp and udp port usage guide for cisco unified communications configuring port security cisco configuring interface characteristics cisco ports and interfaces commands configuring access and trunk interfaces cisco configure port settings on sx500 series stackable cisco configuring port channels cisco cisco business 350 series switches administration guide reset cisco switch port interface to default then apply vlan how to get an open port on cisco routers port forward

## setting an interface back to defaults cisco community

May 06 2024

using no commands will not bring the interface to default for example some switch models have no shutdown as default other models have shutdown as default as mentioned before using the command config default interface you will bring the interface to the default configuration

## tcp and udp port usage guide for cisco unified communications

Apr 05 2024

this chapter provides a list of the tcp and udp ports that cisco unified communications manager uses for intracluster connections and for communication with external applications or devices

## configuring port security cisco

Mar 04 2024

static secure mac addresses and sticky secure mac addresses do not age out these sections describe how to configure secure mac address aging on a port configuring the secure mac address aging type on a port page 62 11 configuring secure mac address aging time on a port page 62 12

## configuring interface characteristics cisco

Feb 03 2024

the default port connections for the c9300 nm 2q module depends on whether you use a 40g qsfp module or a 4x10g breakout cable if you use a 40g qsfp module the ports default to 40g interfaces if you use a 4x10g breakout cable one 40g port is split into four 10g ports you can use a combination of 40g qsfp modules and 4x10g breakout cables

## *ports and interfaces commands*

Jan 02 2024

to display details of the system interfaces use the show interface command show interfacedetailed interface name management redundancy management redundancy port syntax description command default

## *configuring access and trunk interfaces cisco*

Dec 01 2023

verifying interface configuration configuring access and trunk interfaces ethernet interfaces can be configured either as access ports or trunk ports trunks carry the traffic of multiple vlans over a single link and allow you to extend vlans across the network note cisco nx os supports only ieee 802.1q type vlan trunk encapsulation

## *configure port settings on sx500 series stackable cisco*

Oct 31 2023

the default settings of most ports are sufficient for the network when you want to get the most

out of the device you can manually select different options to configure the ports the page also explains port status port settings can be used to define global and per port settings of all ports

## **configuring port channels cisco**

Sep 29 2023

using port channels cisco nx os provides wider bandwidth redundancy and load balancing across the channels guidelines and limitations for port channel configuration you can collect ports into a static port channel or you can enable the link aggregation control protocol lacp

## **cisco business 350 series switches administration guide**

Aug 29 2023

click port management udd udd interface settings information is displayed for all udd enabled ports or a selected group of ports port the port identifier udd state the possible states are default port receives the value of the fiber port udd default state disabled udd is disabled on all fiber ports of the device

## ***reset cisco switch port interface to default then apply vlan***

Jul 28 2023

reset interface port to default switch en switch conf t switch config default interface gi1 0 1 switch config exit

## ***how to get an open port on cisco routers port forward***

Jun 26 2023

most of the cisco routers have a similar user interface and you should have no problem forwarding your ports your currently selected ports are for xbox live if this is correct select your router below if you want to select a different application please see our list of ports use a vpn instead
