A General Police and Constabulary List and Analysis of Criminal and Police Statistics for the Quarter Ending September 1844 1991 jack knife is the story of my journey as a fully operational police officer working at some for the busiest and hardest police stations within the state of new south wales nsw in which i had the privilege of being both an apprentice and a leader i discuss my career from beginning to end and the failing of the system which i trusted and believed in as a result of the lessons learned and instilled in us whilst at the police academy jack knife is about trust it is about loyalty it is about mateship it is about courage and determination it is about trusting others with your life and others trusting you with theirs jack knife not only discusses integrity and human rights but raises questions relating to normal standards within our society and debates them from a logistical aspect and environment in which i was subjected to jack knife contains a range of operational police stories varying between saving peoples lives through to almost losing my own and an array of stories in between my story gives the reader an insight into my life as a policeman and my demise thereafter i discuss issues that i personally have lived through and been apart of and in many cases most people have only seen on television ultimately jack knife has been written to educate not only serving police officers and their families but the general public this book is the truth as to what really goes on behind the front line of the policing world i have written this book with the intention of assisting those that have been diagnosed with ptsd in addition i wish to put positive pressure on every police force within australia to change their ways so that the engine room of the force is looked after the way in which they deserve to be looked after and treated with respect just as the management expect our police to treat members of the public after all police are human too and deserve to be treated like human beings as opposed to the robots we are publicly at times made out to be by police management and the media jack knife is an all inspiring book about not only the nsw police force but a policeman with two arms two legs and a heartbeat in other words a regular human being just doing his best to serve his state the only way he knew how

Federal Uniformed Police 2003 since 2003 the united states has spent about 7 3 billion on a program to help the goi train staff and equip iraqi police forces to maintain domestic order and deny terrorists a safe haven in iraq the program was unprecedented in its magnitude and conducted in a hostile environment with ongoing combat operations in addition the existing iraqi police forces in 2003 were in very poor condition and a new iraqi government was in development despite these impediments dod reports that over 400 000 iraqi police have received training and are on the force however the capabilities of these forces are unknown because no assessments of total force capabilities were made there were weaknesses in program management in 1 program planning and assessments 2 communications and coordination between organizations performing the training and 3 oversight of contract police advisors the impact of these weaknesses on the program is difficult to quantify but undoubtedly led to inefficiencies and waste for example there was no comprehensive plan to guide the program to desired results or assessments to determine if the program was on track because of the frequent rotations by military personnel a comprehensive plan would have provided a foundation for program continuity as military units rotated in and out of iraq also police advisors who were critical to the training program were not always effectively monitored and utilized

A Model Police Force for Developing Nations 1967 policing the police may be a strange concept for the police but is necessary to police the society in indian democracy today policing the police with people s participation is a new concept of recent origin and the book deals with the lack of policing in police down the centuries the british created an oppressive and repressive police to retain their imperialism the police committed crimes with abandon and the british legacy continued even after india became independent the politicians exploited the police and abused police muscles to achieve political advantages for them the police misused their power and authority to serve their self interests owing to the lack of policing with the police people developed a negative avoiding and hostile attitude to police service the antiquated police act 1861 did not envisage any healthy human contact between the police and the citizenry the same situation continues even after 50 long years to policing the democracy the book treats extensively all these aspects
