communities of practice in health and social care highlights how communities of practice can make service development and quality improvement in health and social care easier to initiate and more sustainable using a series of case studies from the UK and Australia. The book demonstrates how the theory of CoPs is implemented in the delivery of health and social care and highlights the associated potential complexities, advantages and disadvantages. Communities of practice in health and social care equips practitioners, managers, educators and practice mentors with the knowledge and skills to facilitate the development and maintenance of communities of practice and highlights how the effects of communities of practice might be made explicit.

Supervising the Reflective Practitioner

2014-06-03

Nurse Practitioner's Business Practice and Legal Guide, Sixth Edition, is a must-have resource for every new or current nurse practitioner. It explains and analyzes the legal issues relevant to nurse practitioners, completely updated and revised. It includes a new chapter on answering frequently asked questions from NPs. In addition, it provides the latest state-by-state laws, including regulatory developments and prosecutions of nurse practitioners, and new case analysis and lessons learned from those cases. The sixth edition also provides new discussions of NP competencies, how the Doctor of Nursing Practice (DNP) degree relates to NPs, the differences in primary care and acute care NPs, definitions of medical bioethics terminology, additional malpractice cases, and the lessons to learn from them. Emerging issues in health policy, guidelines around prescribing opioids and controlled drugs, clinical performance measures, electronic health records, and new opportunities for NPs are also discussed.

The Compassionate Practitioner

2014-08-21

for professional practitioners in the human services to successfully fulfill their important job roles they must be highly motivated in many human service agencies however practitioners encounter situations that can seriously impede their motivation to work diligently as well as reduce their enjoyment on the job for example working with limited resources unrealistic caseloads problematic supervision or interfering events beyond an agency's control e.g. the covid 19 pandemic can all reduce practitioner motivation and work enjoyment this book describes how human service practitioners can achieve and maintain self motivation to be professionally productive and experience enjoyment on the job during both the best and worst of times self motivation is presented in terms of practitioners actively using strategies developed through research and application in behavior analysis and therapy to promote their work productivity and enjoyment self motivation strategies presented are likewise based on the specific advice of highly successful practitioners in the human services some strategies presented are robust in nature in that they can be applied across varying situations to promote self motivation and enhance overall quality of work life other strategies are more situation specific being tailored to overcoming particular obstacles to motivation that practitioners often face in human service agencies the intent of this book is to provide practical information that effectively equips practitioners to be in control of their work motivation and thereby work consistently in a manner that is professionally productive and personally enjoyable
