gap aims to provide a quantitative analysis of the tax gap between potential revenues and actual collections and this technical note explains the concept of the tax gap for corporate income tax cit and the methodology to estimate cit gaps it includes detailed steps to derive the potential cit base and liability with careful consideration for the theoretical differences between the coverage of statistical macroeconomic data and the actual tax base of cit and then compare the estimated results with actual declarations and revenues although the estimated gaps following the approach will have margins of errors it has the advantage of using available data without additional costs of collection and suits initial evaluations of overall cit noncompliance in a country this report presents the first full analysis of the use of carbon pricing on energy in 41 oecd and g20 economies covering 80 of global energy use and of co2 emissions slowing down global warming is one of the most

critical problems facing the world's policymakers today one favored solution is to regulate carbon consumption through taxation including the taxation of gasoline yet gasoline tax levels are much lower in the United States than elsewhere why is this so and what does it tell us about the prospects for taxing carbon here a comparative history of motor fuels taxation 1909-2009 why gasoline is cheap and petrol is dear examines these questions by tracing the evolution of gasoline tax policies in the United States Germany the United Kingdom and New Zealand since the early twentieth century in the process it highlights the crucial role played by fiscal crises this book offers a new understanding of how firms determine their location and what kinds of regional economic policies are needed to attract factories to a country and a region in a highly globalized economic setting the theoretical and empirical analyses examine the influence of the transfer pricing system corporate tax rates and a country's industrial structure on a firm's decision to locate and the impact of firms' location on regional economic activities the theoretical analysis elucidates the importance of the above-mentioned factors in the firm's selection of possible location the empirical analysis uses as an example the case of a supply chain in East Asia the empirical analysis is illustrated with the regional spatial development experiences at the country level and city level of selected countries and cities the analysis offers a perspective for understanding the spatial patterns of a cross-border production system 2011 updated reprint updated annually Islamic taxation law handbook this paper addresses core challenges that all tax administrations face in dealing with noncompliance which are now receiving renewed attention long a priority in developing countries assuring strong compliance has acquired greater priority in countries facing intensified revenue needs and is critical for fairness and statebuilding series policy papers the posthumously published collection Hermit in Paris draws together an array of Italo Calvino's autobiographical writings that provide an illuminating and unexpectedly intimate portrait of one of the postwar era's most inventive and fascinating writers in these pages Calvino recounts his experiences in Italy's antifascist resistance pays homage to his influences traces the evolution of his literary style and in one of the book's most humorous and entertaining sections provides a wry commentary on his travels in the United States in 1959 and 1960
