AEROS Manual Series 1976

commentary william logan s malabar is popularly known as malabar manual it is a huge book of more than 500 000 words it might not be possible for a casual reader to imbibe all the minute bits of information from this book however in this commentary of mine i have tried to insert a lot of such bits and pieces of information by directly quoting the lines from malabar on these quoted lines i have built up a lot of arguments and also added a lot of explanations and interpretations i do think that it is much easy to go through my commentary than to read the whole of william logan s book malabar however the book malabar contains much more items than what this commentary can aspire to contain this book malabar will give very detailed information on how a small group of native englishmen built up a great nation by joining up extremely minute bits of barbarian and semi barbarian geopolitical areas in the south asian subcontinent
