Preaching from Inside the Story

2022-06-02

preaching from inside the story is a book that seeks to carve out an understanding of narrative preaching in an age where there is little agreement about its nature and practice capitalizing on the works of craddock and lowry it seeks to find an expanded palette upon which the preacher may engage the larger canvas of narrative preaching this book will engage the mind by introducing neuroscientific understandings of creativity build upon the foundations of the philosophy of stories by engaging aristotle s foundational understanding of narrative and renew the lowry loop by expanding this seminal work and how it should be understood in our current culture preaching from inside the story breaks new ground by encouraging preachers to move inside stories and tell them from the inside out providing a positive effect thereby affording non narrative preachers to connect with storytelling principles ultimately it is filled with examples of how to do narrative in a very practical way however in showing these practical examples the reader is involved in a deep analysis of those narrative sermons and how they fit into an overall narrative understanding of preaching in the final analysis it invites the reader to take a fresh journey into narrative preaching

Inside The Legislative Process

2019-03-13

beyond the popular notion that congress is always engaged in high level national policymaking and classic drama lies an important reality the bulk of congressional activity is the protracted grinding work of developing and enacting complex detailed legislation vital to our nation s operation but often ignored by the public this book illuminates the inner workings of legislative and executive interaction by focusing on one example of low profile legislation the foreign service act of 1980 bacchus traces the making of this extremely complex law through its nine months of development in the department of state and a further sixteen months in congress from introduction to

enactment the act promises to be a key element of the u s foreign policy apparatus and of major importance in providing a sound basis for future operations of the foreign service yet the biggest danger its proponents faced was not opposition but rather inattention and lack of interest beyond providing an accurate picture of the workings of congress bacchus points to the risks to the public interest that are encountered when important legislation is enacted almost in private influenced only by those who have direct stakes in the outcome
