rural narratives after premchand remained unnoticed because of not being written in english rural india and peasantry ethnography in stories after premchand is a study of literary representation of rural life in a vast

expanse of land designated as the hindi heartland what lends unique strength to this work is that after premchand fictional narrative has not really been dealt with such scholarly seriousness or contextualized in the socio economic scenario of the rural world and peasantry more than thirty stories discussed in ten chapters inherit a strong tradition of peasant narratives since the times of premchand exposing the reader to an intricate array of messy complications and contingencies the small peasantry and the rural world has experienced since the early decades of independent india through the period of liberalization till the recent decades exploring non canonical rural stories in hindi unfolds a spectrum of ethnic cultural and psychological biographies about the evolving rural scenario in the democratic india of our times the substantial reference to concrete facts and data vindicate the realistic strain of the work it would set a new example of interdisciplinary scholarship and open up new vistas of further scholarship especially in the cultural studies the authentically translated excerpts transcribe the spirit of rural india

2010

in a blow against the british empire khan suggests that london artificially divided india s hindu and muslim populations by splitting their one language in two then burying the evidence in obscure scholarly works outside the public view all language is political and so is the boundary between one language and another the author analyzes the origins of urdu one of the earliest known languages and propounds the iconoclastic views that hindi came from pre aryan dravidian and austric munda not from aryan s sanskrit which like the indo european languages greek and latin etc are rooted in the middle east mesopotamia not in europe hindi s script came from the aramaic system similar to greek and in the 1800s the british initiated the divisive game of splitting one language in two hindi for the hindus and urdu for the muslims these facts he says have been buried and nearly lost in turgid academic works khan bolsters his hypothesis with copious technical linguistic examples this may spark a revolution in linguistic history urdu hindi an artificial divide integrates the out of africa linguistic evolution theory with the fossil linguistics of middle east and discards the theory that sanskrit descended from a hypothetical proto indoeuropean language and by degeneration created dialects urdu hindi and others it shows that several tribes from the middle east created the hybrid by cumulative evolution the oldest groups austric and dravidian starting 8000 b c provided the grammar syntax plus about 60 of vocabulary s k t added 10 after 1500 b c and arabic persian 20 30 after a d 800 the book reveals mesopotamia as the linguistic melting pot of sumerian babylonian elamite hittite hurrian mitanni etc with a common script and vocabularies shared mutually and passed on to i e s k t d r arabic and then to hindi urdu in fact the author locates oldest evidence of s k t in syria the book also exposes the myths of a revealed s k t or hebrew and the fiction of linguistic races i e aryan semitic etc the book supports the one world concept and reveals the potential of urdu hindi to unite all genetic elements races and regions of the indo pakistan sub continent this is important reading not only for those interested to understand the divisive exploitation of languages in british led india s partition but for those interested in the science and history of origin of urdu hindi and other languages the false claims of linguistic races and creation history of languages and scripts language mythology and racism ancient history and fossil languages british rule and india s partition
