publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews popular science gives our readers the information and tools to improve their technology and their world the core belief that popular science and our readers share the future is going to be better and science and technology are the driving forces that will help make it better since the 1700s british periodicals devoted to field sports have been reporting developments in techniques trends legislation conservation and more they therefore provide a detailed examination of the country s rich and broad history of hunting fishing foxhunting and related shooting sports british sporting periodicals an annotated bibliography is the first comprehensive listing of all the periodicals on field sports produced in great britain up to 1950 each title is described in detail including publisher place of publication general content format frequency of issue and publishing history the book also includes many wonderful images of magazine covers and front pages diagrams that trace various name changes and mergers and a detailed timeline exhaustively researched and carefully compiled british sporting periodicals is a valuable reference tool for collectors historians and researchers of field sports designed to be accessible to noneconomists it relegates technical details to appendixes book jacket wielding words like weapons is a collection of acclaimed american indian movement activist intellectual ward churchill s essays in indigenism selected from material written during the decade 1995 2005 it includes a range of formats from sharply framed book reviews and equally pointed polemics and op eds to more formal essays designed to reach both scholarly and popular audiences the selection also represents the broad range of topics addressed in churchill s scholarship including the fallacies of archeological and anthropological orthodoxy such as the insistence of cannibologists that american indians were traditionally man eaters hollywood s cinematic degradations of native people questions of american indian identity the historical and ongoing genocide of north america s native peoples and the systematic distortion of the political and legal history of u s indian relations less typical of churchill s oeuvre are the essays commemorating cherokee anthropologist robert k thomas and yankton sioux legal scholar and theologian vine deloria jr more unusual still is his profoundly personal effort to come to grips with the life and death of his late wife leah renae kelly thereby illuminating in very human terms the grim and lasting effects of canada s residential schools upon the country s indigenous peoples a foreword by seneca historian barbara alice mann describes the sustained efforts by police and intelligence agencies as well as university administrators and other academic adversaries to discredit or otherwise neutralize both the man and his work also included are both the initial stream of consciousness version of churchill s famous or notorious little eichmann s opinion piece analyzing the causes of the attacks on 9 11 as well as the counterpart essay in which his argument was fully developed excerpt from the catholic world vol 105 a monthly magazine of general literature and science april 1917 to september 1917 if these recommendations of work simplicity and continuity are insisted upon the school graduate will go forth better equipped for life he will probably be less informed than the present day pupil but he will be able to do more because he will have the trained tools acquired by real discipline and not the useless impedi menta of mere information his educational dress may not be so showy as that of the boy of today but it will wear longer and give better service after all homespun and not silks and satins is the proper clothing for the child who must work for his daily in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works annals of the international geophysical year volume 14 tables of igy monthly median ionospheric data is the second of five volumes of l g y data containing tables of monthly median values of ionospheric characteristics for the period july 1957 january 1959 inclusive the data are extracted from booklets bulletins and data summaries of many kinds which have been prepared at ionospheric observatories and sent to one of the discipline v world data centers at boulder moscow slough and tokyo this volume is composed of 27 chapters representing the stations which are arranged in alphabetical order the tables for each station are preceded by some of the more important information relating to the station this information is taken from the ionospheric stations manual u s r i 1958 that also contains hourly values of cos x and many other useful data both the u r s i three letter code and the c s a g i number have been included in the tables to facilitate reference either to the ionospheric stations manual or to annals of the i g y volume vii this book will be of value to geophysicists researchers and workers in the allied fields june and dec issues contain listings of periodicals dedicated to remote sensing images from their acquisition to their use in various applications this book covers the global lifecycle of images including sensors and acquisition systems applications such as movement monitoring or data assimilation and image and data processing it is organized in three main parts the first part presents technological information about remote sensing choice of satellite orbit and sensors and elements of physics related to sensing optics and microwave propagation the second part presents image processing algorithms and their specificities for radar or optical multi and hyper spectral images the final part is devoted to applications change detection and analysis of time series elevation measurement displacement measurement and data assimilation offering a comprehensive survey of the domain of remote sensing imagery with a multi disciplinary approach this book is suitable for graduate students and engineers with backgrounds either in computer science and applied math signal and image processing or geophysics about the authors florence tupin is professor at telecom paristech france her research interests include remote sensing imagery image analysis and interpretation three dimensional reconstruction and synthetic aperture radar especially for urban remote sensing applications jordi inglada works at the centre national d Études spatiales french space agency toulouse france in the field of remote sensing image processing at the cesbio laboratory he is in charge of the development of image processing algorithms for the operational exploitation of earth observation images mainly in the field of multi temporal image analysis for land use and cover change jean marie
