closed end investment companies ceics were the dominant form of investment companies in the united states during the early part of this century but interest in them declined after

the 1929 stock market crash since 1985 however there has been a significant revival of interest in ceics a substantial amount of academic research has focused on the nature of closed end funds discounts and premiums and on the share price behavior of these firms which often results in the prices differing from the net asset value of the shares this book is designed for the academic researcher interested in ceics and the practitioner interested in using ceics as an investment vehicle the authors summarize the evolution of ceics present the factors that cause ceic shares to trade at different levels from their net asset values provide a complete survey of the academic literature on this topic and summarize the current state of research on ceics

## **Back to School**

2008

closed end funds exchange traded funds and hedge funds origins functions and literature is a concise and valuable book that will be of interest to individual investors financial professionals and academic researchers alike it provides a brief history and institutional discussion of these investment companies and also presents a summary of the research on these funds investment practitioners will find the book useful as a reference and as a quick refresher on the current state of knowledge regarding each fund type equally important it provides academic researchers with an accurate institutional framework within which to cast their theoretical models and a point of departure for expanding the empirical analysis for improving our understanding of these funds all in all this is a very valuable book i highly recommend it john j jackson professor of economics auburn university professors anderson born and schnusenberg provide a valuable service in this monograph the practical significance of closed end funds exchange traded funds and hedge funds has

increased dramatically in recent years but all too many academics and investors know little about them this text presents a carefully focused and understandable description of these investment vehicles highlighting the big unresolved questions while also including careful and fair accounts of the state of the literature nothing extraneous clutters the presentation but more importantly nothing necessary is left out highly recommended t randolph beard professor of economics and public policy auburn university this book is both useful as a reference book and as an additive educational overview of etfs and hedge funds as well as cefs in today s tumultuous markets much reference is made to these subjects without a clear understanding of the vehicles their structure and their history this is a very timely publication and should be viewed as an important read the book contains definitive explanations and also includes an excellent summary of past works in this area readable informative and highly useful as a reference source kathleen a wayner president and ceo bowling portfolio management

## ***99 Great Answers to Everyone's Investment Questions***
