Local Economic Development

2001

this article examines the opportunities for and obstacles to economic development in cities states and cities invest precious resources each year to foster economic development yet in many cases without much or predictable benefit this study seeks to determine what local economic development officers

identify as their municipality's opportunities for and obstacles to economic development a body of economic development literature focuses on the effectiveness of local economic development policies this research seeks to identify the factors external to those policies themselves that assist or obstruct local economic development municipal officials responsible for economic development from forty seven municipalities in massachusetts responded to a confidential online survey commonly identified obstacles to economic development included a lack of sufficient funding infrastructure and regulatory process or agency difficulties commonly identified opportunities to economic development included leadership focused on economic development location specific features and access to highways

South Peninsula Municipality

1999

while uganda has a long history of decentralized service delivery and has instituted local economic development led as an additional mandate for local governments lgs there has been less progress in operationalizing the concept and practically implementing it across lgs in uganda in addition to their basic service delivery functions enshrined in the local governments act of 1997 since 2006 lgs are also mandated by various policy documents to play a role in wealth creation and increasing citizens income levels while the government of uganda gou's led policy does outline the strategic intervention areas that lgs should implement there is still considerable confusion among lg staff as to what this entails on a day to day basis and there has been limited progress in implementation at the request of the molg the world bank therefore commissioned this assignment in support of the government of uganda gou's efforts to improve the capacities of lgs for promoting led the study focused on assessing three localities jinja municipality and arua and nwoya districts both in terms of their local economic potentials and enabling environment for business as well as in terms of the institutional and policy context for promoting led the study used quantitative methodologies to identify promising economic sectors in the three localities as well as qualitative methodologies to identify the main constraints that those sectors currently face

Promoting Local Economic Development Through Strategic Planning: Toolkit

2005

this study critically analysed and assessed local economic development led in the former south peninsula municipality spm as well as the important lessons challenges and considerations for the new city of cape town that emanated from the led experience of the spm

Empirical Approaches About the Input-Output Model for the Local Economic Development

2009

this thesis examines the notion of developmental local government within the context of the implementation of a local economic development policy and the interrelationship that exists between national development frameworks underpinning growth and development objectives developed at the national and provincial spheres of government and the local economic development policy executed at the local sphere of government chapter one provides a historical overview of the integrated development plan and of local economic development in the republic of south africa the concept of a developmental state within the context of the republic of south africa and also the evolution of the system of local government are examined chapter two discusses research methodology within the context of the discipline of public administration and provides a distinction between qualitative and quantitative research and the rationale behind the adoption of a qualitative research approach for the purpose of this study an overview of public administration and public policy literature is broadly discussed in chapter three the theoretical framework of developmental local government and its characteristics is discussed in the same chapter the trajectory of national economic development policies namely the reconstruction and development programme the growth employment and redistribution policy accelerated shared growth initiative for south africa and new growth path and the interrelationship with the led policy objectives are examined in chapter four the analysis of the case study underpinning this study and presentation of research findings flowing from a

field research undertaken in the emakhazeni local municipality situated in the mpumalanga province of the republic of south africa are discussed in chapter five an led policy implementation model suited for developmental local government is also discussed in this chapter the overall deductions recommendations limitations of this study and suggestions for further research are presented in chapter six
