activities are related to cambridge maths in a box which enriches the program with contextual activities and saves teachers time with planning this research based k 6 program is built to provide instruction on the common core standards and includes special emphasis on the mathematical practices and learning progressions at every grade level based on the nsf funded children s math worlds project and over 10 years of research math expressions is proven to be effective in raising student achievement hands on and inquiry driven math expressions common core teaches students how to represent solutions and explain their answers this approach helps develop problem solving and reasoning skills the strong emphasis in math expressions on representation and discussion opens up the world of mathematics to all learners every lesson includes intervention on level and challenge differentiation to support classroom needs publisher math exercises for level 6 this research based k 6 program is built to provide instruction on the common core standards and includes special emphasis on the mathematical practices and learning progressions at every grade level based on the nsf funded children s math worlds project and over 10 years of research math expressions is proven to be effective in raising student achievement hands on and inquiry driven math expressions common core teaches students how to represent solutions and explain their answers this approach helps develop problem solving and reasoning skills the strong emphasis in math expressions on representation and discussion
