reflections for the unfolding year is a collection of addresses given by alan wilkinson roving over subjects from apartheid to lent to the ever evolving image of mary he offers a compassionate response to some of the most painful subjects of the last hundred years as well as a thoughtful reflection on the sacraments of the church of england what they have meant to our ancestors and what they mean to us today delving into troubling questions about doubt repentance and what it means when god appears to be silent in times of crisis he draws on sources from all walks of life in order to express how anglicans feel about fundamental issues such as grief hope and grace as well as most potently their longing for god alan wilkinson relates stories about the church its bishops and its believers with rueful good humour and thoughtfulness leading the reader through more than half a century of his ministry in portsmouth and elsewhere his portrait of the

church of england showcases both the ordinary and the extraordinary the prosaic and the poetic through his fluent pen we come to understand more of the lives of the people in the church such as desmond tutu william temple and bill sargent who have made it what it is today catholic reformed and liberal

first published in 1930 swallows and amazons secured arthur ransome s reputation as one of the most influential children s authors of all time yet prior to writing fiction he had had a turbulent career as a journalist and war correspondent in revolutionary russia in this refreshing account of ransome s work alan kennedy sets out to explain his enduring appeal combining literary criticism with psychological expertise not only did ransome apply a careful narrative theory to his works his use of symbolism aligning them more with the modernist tradition than with the event driven children s literature of contemporaries such as richmal crompton and enid blyton but his novels are also more than usually autobiographical this kennedy ably demonstrates with reference to three particular challenges ransome faced in a seriously conflicted life his father s untimely death his abandonment of his infant daughter in order to escape his catastrophic first marriage and the innumerable compromises that kept him alive during his russian exile a thoroughly mischievous person the other arthur ransome is the first study to tackle this matter systematically giving casual and scholarly readers alike new insights into this fascinating figure

A Thoroughly Mischievous Person

what makes us who we are are we born good or evil do we have free will what drives our behaviour and why can technology change what it means to be human in this thoroughly revised second edition of emotional amoral egoism professor nayef al rodhan demonstrates the impact of our innate predispositions on key issues from conflict inequality and transcultural understanding to big data fake news and the social contract however it is the societies we live in and their governance structures that largely determine how we act on our innate predispositions consequently al rodhan proposes a new and sustainable good governance paradigm which must reconcile the ever present tension between the three attributes of human nature emotional amoral egoism and the nine critical needs of human dignity this book is a perfect resource for enlightened readers academics and policy makers interested in how our innate instincts and tendencies shape the world we live in and how the interplay between neurophilosophy and policy can be harnessed for pragmatic and sustainable peace security and prosperity solutions for all at all times and under all circumstances

Emotional Amoral Egoism

2021-09-30

the industrial revolution provided the greatest increase in living standards the world has ever known while propelling britain to dominance on the global stage in forging modernity martin hutchinson looks at how and why britain gained this prize ahead of its european competitors after comparing their endowments and political structures as far back as 1600 he then traces how britain through better policies primarily from the political tory party diverged from other european countries hutchinson s harvard mba allows a unique perspective on the early industrial enterprises many successes resulted from marketing control systems and logistics rather than from production technology alone while on a national scale the scientific method and commercial competition were as important as physical infrastructure by 1830 through ever improving policies britain had built a staggering industrial lead half a century ahead of its rivals then the tories lost power and policy changed forever in his conclusion hutchinson shows how changes welcomed by conventional historians caused the decline of industrial britain nevertheless the policies that drove growth ingenuity and rising living standards are still available for those bold enough to adopt them

Forging Modernity

2023-03-30

in jesus and women niamh middleton combines insights from evolutionary biology feminism and the metoo movement to highlight the revolutionary attitude of jesus towards women her careful exegesis comparing the treatment and depiction of women in the old and new testaments illuminates the way forward for the treatment of women by church and society more importantly however it holds the potential to greatly enrich our understanding of jesus divinity middleton s bold approach encourages christian women to reclaim their religion as a tool for empowerment correcting the regressive course that christianity has taken in this regard since roman times she also cites the remarkable life and untimely death of western heroine diana princess of wales as an archetypal example of why christianity must be reclaimed by its female members above all she powerfully argues that while political feminism can tackle the symptoms of the perennial battle of the sexes only a revolution of grace can bring about a full restoration of the harmony between the sexes described in genesis

Jesus and Women

oliver cromwell stands at the gateway of modern history his resolute puritanism formative to concepts of political and religious liberty the development of democracy and the individual s duty to resist tyranny in the lord protector robert s paul traces cromwell s political career from his early influences and political experience to the english civil wars his brutal conquest of ireland and campaigns in scotland where some historians present cromwell in extremes either as a scheming power hungry tyrant or as a noble hero paul seeks to understand the lord protector through the religious context of the seventeenth century removed from the typical historical readings of his contemporaries in order to understand cromwell s career paul s investigation focusses his study through the extent to which cromwell shared the theological beliefs common to his time this relationship between his religion and political action provides an estimate of cromwell as a man of faith statesman and ruler

The Lord Protector

2023-08-31

from its first publication what is now known as the immortality ode has been praised for the magnificence of its verse and disparaged for its paucity of meaning the immortality of the subtitle unsubstantiated and the recollections insubstantial yet wordsworth s idea of immortality has clear precedents in the seventeenth

century and recollections of childhood are traheerne s starting point for the recovery of a lost vision comparable to wordsworth s via the power of the imagination or reason they believed they could experience a renewed vision that both termed variously paradise or infinity or immortality graham davidson traces the origins of wordsworth s poetic impetus to his resistance to the cartesian division between mind and nature first adumbrated by the cambridge platonists if reunited paradise was regained but this personal trajectory was tempered by a deep sympathy for the woes of mortal life davidson explores the consequent dialogue through some of wordsworth s best known poems at the heart of which is the ode in the last section he demonstrates how wordsworth s publishing history led the victorians and modernists to misinterpret his work if one considers eliot s four quartets as odes facing several of the same problems as did wordsworth there is some irony in eliot s dismissal of the immortality ode as verbiage

The Intelligible Ode

2023-03-30

katharine briggs made an indelible mark on the world of folklore with her compilation of the dictionary of british folktales in the english languages while her subsequent dictionary of fairies confirmed her already distinguished place among british folklorists briggs s initial academic interest while at oxford university was in seventeenth century literature and the civil war upon leaving oxford she pursued amateur dramatics and worked for the guide movement and during the second world war she served in the women s auxiliary air force it was here perhaps that her personality fully matured among other activities she delighted her fellows with her remarkable gift for story telling after the war her career as a folklorist began to blossom as if to make up for lost time she spent the last twenty years of her life writing and lecturing almost continually as well as her books on folklore she gained renown for her children s books kate crackernuts and hobberdy dick she was responsible for revitalising the folklore society and as its president she laid the foundations of the society as it is today hilda davidson s biography brings to life a remarkable woman whose combination of academic excellence and natural gift for narrative found her friends all over the world

Katharine Briggs

i will tell you a story that will make you believe in god no story can guarantee being able to do this yet novelists can tell stories that make us think about what we believe about god and why despite repeated predictions of the death of the novel thousands of works of fiction are published and read in britain each year although western society is less religiously observant than it was many 21st century novelists persist in pursuing theological religious and spiritual themes make believe seeks to explain why with chapters offering analyses of novels from several genres so called literary fiction historical fiction science fiction

fantasy and dystopia david dickinson discusses a wide spectrum of novelists authors who are avowedly atheistic and authors who have a vested interest in perpetuating biblical stories are both featured well known writers such as rushdie mcewan mccarthy and martell rub shoulders with some you may be meeting for the first time appealing to literature students and people who simply enjoy reading whether christian or not this study of god in novels invites us to open our minds and allow aspects of our culture to shape our understanding of god and to change our ways of talking about the divine

Global Communication

2019-07-05

the salvation army is nowadays viewed with fondness but william booth s evangelical crusade of the 1880s and early 1890s sparked violent riots led by an opposition group the skeleton army these riots caused destruction to property injury to many people and on occasion loss of life spreading across the south and west of england the skeleton army s aim was to eject salvationists from their towns rather than facing repercussions themselves however it was often the peaceful parading salvationists who were imprisoned in with god on their side james gardner follows the spread of violence in the context of the popular conservatism of late victorian england with close study of particular towns creating a rich tapestry of historical narrative that will be of interest to scholars and enthusiasts alike the motives and actions of both groups are considered along with the subsequent shift in the salvation army s focus towards social welfare it is this shift that enabled the organisation to grow into the treasured charity we know today and helped transform william booth from one of the most vilified

men of the nineteenth century into its saint

With God on their Side

the middle ages in our cultural imagination are besieged with ideas of wars tournaments plagues saints and kings knights lords and ladies in his era defining work inventing the middle ages norman cantor shows that these presuppositions are in fact constructs of the twentieth century through close study of the lives and works of twenty of the twentieth century s most prominent medievalists cantor examines how the genesis of this fantasy arose in the scholars spiritual and emotional outlooks which influenced their portrayals of the middle ages in the course of this vigorous scrutiny of their scholarship he navigates the strong personalities and creative minds involved with deft skill written with both students and the general public in mind inventing the middle ages provided an alternative framework for the teaching of the humanities revealing the interconnection between medieval civilisation the culture of the twentieth century and our own assumptions cantor provides a unique standpoint both forwards and backwards as lively and engaging today as when it was first published in 1991 his analysis offers readers the core essentials of the subject in an entertaining and humorous fashion

Inventing the Middle Ages

before its first publication in 1971 the three essays that comprise jonathan edwards treatise on grace had never appeared in a collection this book presents these three rare pieces and his essay on the trinity along with brief introductory sketches to their context and their relevance to his more widely known work the concept of divine grace was a pivotal notion in the theology of jonathan edwards he had inherited a covenant theology from his puritan forebears which supposed that the holy spirit was the agency of application through which the father granted grace to the elect after the son s sacrifice in these essays edwards attempts to modify this inherited doctrine instead of being the agency of application utilised by the father edwards suggests that the holy spirit is the gift given itself the treatise on grace is a classic work of american theology from one of the country s most important theologians

Treatise on Grace

2022-08-25

in the christian society one of the great christian commentators of the twentieth century describes how the church came to be a society the past relationship between the missionary church and the pagan cultures it replaced is discussed alongside more recent delicate ecumenical relationships and the ongoing conflict between the church and atheism stephen neill s perceptiveness as a historian is shown in his masterful summary of the church s story from the days of jesus to his own time meanwhile his experience as a missionary and ecumenist comes to the fore as he demonstrates how the unity of the church is integral to its place in modern society and its power to create a society throughout his approach is empirical and he considers all who have claimed the christian name without making preliminary judgements as to their orthodoxy or their standing within the general body of christian people the result is a comprehensive depiction of christianity as a social phenomenon that is as relevant today as when it was written

The Christian Society

2022-01-27

julian of norwich s revelations of divine love grapples with the same fundamental question that has vexed philosophers and theologians since the advent of monotheistic religion and continues as a barrier to belief for many today namely if god is so good how can natural disaster genocide trauma and my present suffering occur historically there have been two apparently very different approaches to the problem the pastoral or practical on the one hand and the

systematic on the other however richard norton suggests that these two lines of thought may not be as separate as they seem and may indeed be dependent on one another for their cohesion drawing on julian s medieval experience of personal and population wide suffering alongside that of more recent theologians such as dorothy solle and jurgen moltmann norton constructs a compassionate model of theodicy that can be of use to both pastoral and systematic theologians throughout he remains sensitive to the raw atrocity of evil while preserving a vision of god as the one who ensures that all shall be well

Julian of Norwich and the Problem of Evil

2023-10-26

peter le vasseur s art depicts the beauty of the world and the pressure that humankind exerts upon it not content with merely creating highly researched nature art his work carries an ecological message often ahead of its time unusually for an artist he builds in the detail of contemporary life during the decades through which he has lived painting in a meticulous and distinct style he escaped the channel island of guernsey with his parents just before the german occupation in 1940 and grew up in london as a refugee winning a scholarship to art college he went on to create pop art for one man shows in major london galleries and sold to the beatles film stars and aristocracy in a brush with life jason monaghan presents the definitive work on le vasseur s life and work charting his progression from pop art and fantasy to political pieces book illustration and environmental paintings never depressing the messages of both artist and author are thoughtful and sometimes ironically amusing throughout le vasseur s central philosophy is evident where nature survives hope remains

A Brush with Life

2022-07-28

the use of school life as a closed narrative environment is well documented and modern examples such as malory towers and harry potter show the genre s continued appeal while there have been several histories of the school story especially in children s literature almost all of them take as their starting point tom brown s schooldays although occasionally acknowledged in passing there has never been a complete study of earlier school stories or of other fictional portrayals of school life before the middle of the eighteenth century in before tom brown robert kirkpatrick traces the roots of the school story back to 2500bc when school life was a feature of sumerian egyptian and graeco roman texts written as teaching aids for children from chaucer s canterbury tales to shakespearean comedies he explores for the first time the use of school dialogues in the classroom in print and on stage and presents new evidence that the first school novel appeared in 1607 finally he examines the role of the school story in the broader development of the novel as the genre became established through the eighteenth century readers will be rewarded with a whole new perspective on the history of children s literature
