Green Growth: Managing the Transition to a Sustainable Economy 2011-02-03

project supported by many international agencies

The Power Of You 2001

traces how Canada's colonial and national
development contributed to modern environmental
problems such as urban sprawl the collapse of
fisheries and climate change includes over 200
photographs maps figures and sidebar discussions
on key figures concepts and cases offers concise
definitions of environmental concepts ties
Canadian history to issues relevant to
contemporary society introduces students to a new
dynamic approach to the past throughout history
most people have associated northern North America
with wilderness with abundant fish and game snow
capped mountains and endless forest and prairie
Canada's contemporary picture gallery however
contains more disturbing images deforested
mountains empty fisheries and melting ice caps
adopting both a chronological and thematic
approach Laurel MacDowell examines human
interactions with the land and the origins of our
current environmental crisis from first peoples to
the Kyoto Protocol this richly illustrated
exploration of the past from an environmental
perspective will change the way Canadians and

others around the world think about and look at
canada
