The Poet as Phenomenologist 2015-02-26

the poet as phenomenologist rilke and the new poems opens up new perspectives on the relation between rilke s poetry and phenomenological philosophy illustrating the ways in which poetry can offer an exceptional response to the philosophical problem of dualism drawing on the work of husserl heidegger and merleau ponty luke fischer makes a new contribution to the tradition of phenomenological poetics and expands the debate among germanists concerning the phenomenological status of rilke s poetry which has been severely limited to comparisons of rilke and

husserl fischer explicates an implicit phenomenology of perception in rilke s writings from his middle period 1902 1910 he argues that rilke cultivated an artistic perception that in a philosophically significant manner overcomes the opposition between the sensuous and the intelligible while simultaneously transcending the boundaries of philosophy fischer offers novel interpretations of central poems from rilke s neue gedichte 1907 and der neuen gedichte anderer teil 1908 and frames them as the ultimate articulation of rilke s non dualistic vision he thus demonstrates the continuity between rilke and phenomenology while arguing that poetry in this case provides the most adequate response to a philosophical problem

W. S. Graham 2022-05-05

on the peripheries of uk poetry culture during his lifetime w s graham is now recognized one of the great poets of the twentieth century in the first concerted study of graham s poetics in a generation david nowell smith argues that graham is exemplary for the poetics of the mid century his extension of modernist explorations of rhythm and diction his interweaving of linguistic and geographic places his dialogue with the plastic arts and the tensions that run through his work between philosophical

seriousness and play solitude and sociality regionalism and cosmopolitanism the heft and evanescence of poetry's medium drawing on newly unearthed archival materials nowell smith orients graham's poetics around the question of the art object graham sought to craft his poems into honed finished objects yet he was also aware that the poem's finished object is never wholly finished graham's work thus facilitates a broader reflection on language as a medium for art making
