1805 to 1945 in consultation with Michael Rayner of the Battlefields Trust and specialist military authors the chosen battlefields are all served by battlefield tour companies or cater for self guided tours and in each case still feature much of interest to see today the final consideration was whether the sites are safe to visit these final two considerations have ruled out most post 1945 sites history explores the long held tradition of naming steam locomotives in honor of the military the naming of steam locomotives was a beloved british tradition since the first railway locomotives appeared in 1804 many of the names were chosen in honor of military personnel regiments squadrons naval vessels aircraft battles and associated historic events this volume looks specifically at the steam locomotives with military inspired names that were built by the london north eastern railway which joined the british railways stock in 1948 a large number of the company s jubilee class locomotives were given names with a military connection as were a small number of black five class engines famously the majority of the much admired royal scot class of engines carried names associated with the military in general and regimental names in particular many of the nameplates were adorned with ornate crests and badges long after the demise of mainline steam rescued nameplates have become prized collectors items this generously illustrated publication highlights the relevant steam locomotives and explains the origins and social history surrounding their military names an account of the making of south africa as we know it in a man apart richard steyn once again brings to life a south african icon louis botha was the first prime minister of the union of south africa a union he did much to create in the decade after the devastation of the anglo boer war during the war botha was a brilliant young boer general who through his battlefield strategy won significant victories over the british in the early stages of the war when the weight of british arms overwhelmed the boers botha along with smuts did much to encourage peace between english and afrikaner and led the country to union in 1910 and dominion status botha was a big hearted and generous man who showed magnanimity in his dealings with all including former enemies he led the south african troops to victory and the capture of german south west africa prior to this he had to put down a revolt of pro german afrikaners at the peace of versailles representing south africa he pleaded unsuccessfully for magnanimity towards the germans botha was a globally respected figure he and smuts effectively operated as a double act in south africa and on the international stage before botha s untimely death in august 1919 at only 57 in a man apart this tragically short life is illuminated in full at the outbreak of the second anglo boer war in 1899 a large number of hollanders and dutch expatriates joined the boers their reasons ranging from loyalty to their common ancestry to strong anti british sentiments and a search for adventure brothers in arms documents the trials and tribulations of these volunteers most of them unaccustomed to the harsh landscape and climate of south africa quotations and personal anecdotes from their diaries and memoirs vividly bring to life their hardships on commando the thunder and chaos of battle and the trauma of comrades falling around them some of the prominent figures in the book are cornelius van gogh brother of the painter vincent van gogh the dutch artist frans oerder who became the transvaal s first official war artist jochem van bruggen four times winner of the coveted hertzog prize for afrikaans literature and rev herman van broekhuizen who played rugby for south africa in 1896 and later served as south african ambassador in the hague brothers in arms covers the full spectrum of the hollanders roles as soldiers at the various battle fronts ambulance personnel and military attachés and their life in prisoner of war camps overseas in 1899 great britain was at the pinnacle of its imperial power yet the british army was destined to be defeated by a citizen militia composed of south african frontier farmers the boers in one week in december 1899 the farmers of the south african boer republics of the orange free state and the transvaal inflicted three serious reverses on british troops this book sets the battles in context and explains the failure of a professional army skilled in the fighting techniques of the nineteenth century when faced with an enemy whose weapons and tactics foreshadowed the warfare of the twentieth this study provides students historians other academics and scholars as well as other researchers arthur conan doyle crossed in south africa during what has become known as britain s last imperial war each of the three had pressing personal reasons to leave england behind but they were also motivated by notions of duty service patriotism and in kipling s case jingoism sarah lefanu compellingly opens an unexplored chapter of these writers lives at a turning point for britain and its imperial ambitions was the south african war as kipling claimed a dress rehearsal for the armageddon of world war one or did it instead foreshadow the anti colonial guerrilla wars of the later twentieth century weaving a rich and varied narrative lefanu charts the writers paths in the theatre of war and explores how this crucial period shaped their cultural legacies their shifting reputations and their influence on colonial policy a record of all races and history of south africa featuring notable personalities and pivotal events this updated version of the 1988 edition strips away the curtain of myths and misconceptions that surround south africa much has happened and is still happening in this troubled land so to better understand the events of recent years the final two chapters have been revised and three new chapters have been added 1 000 color photos maps and illustrations the south african war 1899 1902 also called the boer war and anglo boer war began as a conventional conflict it escalated into a savage irregular war fought between the two boer republics and a british imperial force that adopted a scorched earth policy and used concentration camps to break the will of afrikaner patriots and boer guerrillas in an imperfect occupation john boje delves into the agonizing choices faced by winburg district residents during the british occupation afrikaner men fought or evaded combat or collaborated afrikaner women fled over the veld or submitted to life in the camps and black africans weighed the life or death consequences of taking sides boje s sensitive analysis showcases the motives actions and reactions of boers and africans alike as initial british accommodation gave way to ruthlessness challenging notions of boer unity and homogeneity boje illustrates the precarious tightrope of resistance neutrality and collaboration walked by people on all sides he also reveals how the repercussions of the war s transformative effect on afrikaner identity plays out in today s south africa readable and compassionate an imperfect occupation provides a dramatic account of the often overlooked aspects of one of the first modern wars
