In this first module of an NGO training guide for peace corps volunteers, you build on your experiences with nonprofit organizations in the United States to gain an understanding of the critical role nongovernmental organizations (NGOs) play in developing civil societies. By the time you complete this module, you should have acquired the knowledge, skills, and attitudes to describe four characteristics that differentiate NGOs from government organizations and for-profit businesses; identify some major sectors (e.g., health, youth, or women's issues) where NGOs are active in your country of service; explain in your own words how each of the six key elements of public participation increases the involvement of citizens in a civil society; select three words that describe the appropriate role of a peace corps volunteer in working with NGOs and give examples of situations where each role would be useful. The peace corps is a great symbol of assistance around the world, an opportunity for men and women of all ages to help those less fortunate. This booklet is designed to help answer the most frequently asked questions from family and friends; it also provides information that can alleviate concerns and facilitate a supporting role in the volunteer's success. The love and encouragement from folks back home is tremendously helpful for volunteers as they embark on the experience of a lifetime.
