A History of World Societies, Value Edition, Volume 1 2020-09-24 by bringing into dialogue modern systems theory and international relations this text provides theoretically innovative and empirically rich perspectives on conflicts in world society this collection contrasts niklas luhmann s theory of world society in modern systems theory with more classical approaches to the study of conflicts offering a fresh perspective on territorial conflicts in international relations it includes chapters on key issues such as conflicts and human rights conflicts in the middle east and sub saharan africa war and violence greek turkish relations conflict theory the role of states in world societal conflicts legal territorial disputes in australia hegemony and conflict in global law conflict management after 9 11 while all contributions draw from the theory of world society in modern systems theory the authors offer rich multi disciplinary perspectives which bring in concepts from international relations peace and conflict studies sociology law and philosophy territorial conflicts in world society will appeal to international relations specialists peace and conflict researchers and sociologists

A History of World Societies 7th Ed Combination + World Atlas 2007-09-18 john w meyer s work broke new grounds in institutional thought in sociology and made him a central thinker for the emerging interdisciplinary field of neoinstitutionalism while at the same time establishing institutional thought s comparative variant world society theory his scholarship plays a prominent role in contemporary social theory and has shaped research areas such as international relations and globalization organization theory and management studies one of the results of meyer s wide ranging and interdisciplinary influence is that his work has appeared in a diverse range of outlets this book brings together some of john w meyer s widely

scattered work reviewing four decades of scholarship and adding several original pieces from meyer s current work it gathers substantive commentary on social processes from stratification to globalization to socialization as well as on key social institutions from science to religion to law to education in its expansive review this book is both about neoinstitutional thought in general and world society theory in particular this book is both by john w meyer and about john w meyer to the compilation of meyer s canonized and current work georg krücken and gili s drori add an essay on the theoretical and empirical contribution of meyer s institutional theory placing it within the broader context of contemporary social theory globalization research and organizational studies in both in the united states and europe

A History of World Societies, Value Edition, Volume II:Since 1450 2014-09-12 the present volume has brought together leading scholars in the field to examine the concept of globalization deliberate on the character of its multifaceted nature and expressions and delineate its impact on the emerging world economy politics culture and science

Loose-Leaf Version for a History of World Societies, Value Edition, Volume 2 2020-09-28 since the 1970s various sociological approaches have tried to understand and conceptualize the global yet few of them have systematically addressed the full spectrum of social relationships prominent exponents of the global approach such as world systems analysis instead have focused on particular domains such as politics or the economy under the label of world society however some authors have suggested alternatives to the predominant equivocation of society and the nation state the contributions to this volume share that objective and take their point of departure from the two most ambitious projects of a theory of world society world polity research and systems theory mapping out the common ground and assessing their potential to inform empirical analyses of globalization

Loose-Leaf Version for a History of World Societies, Value Edition 2017-09-29 globalization lechner has drawn on his extensive work on and his deep knowledge of globalization to write a brief accessible and highly successful introduction to the field the early chapters on food sport and mass media should pique the student s interest and lure them into a deeper involvement with later chapters and the field in general george ritzer university of maryland frank lechner s text takes on key issues in the study of globalization with real clarity and critical power an authoritative account of the major issues theories and debates in the field aptly illustrated by diverse contemporary examples this text offers a clear analysis of a complex topic that will be an invaluable resource for students and scholars fran tonkiss london school of economics written in a lively and accessible style globalization the making of world society shows how globalization affects everyday experience creates new institutions and presents new challenges with many examples lechner describes how the process unfolds in a wide range of fields from sports and media to law and religion while sketching the outlines of a world society in the making the book also demonstrates that globalization is inherently diverse and contentious in this concise analysis of a complex subject lechner presents some of the best work in the social sciences in clear and readable fashion globalization the making of world society will serve as a stimulating state of the art text for any student of globalization beginner or advanced
