in this thought provoking book sociologists gerald e markle and frances b mccrea ask what would happen if western medicine were to disappear using a rigorous and imaginative method a thought experiment markle and mccrea evaluate medicine s impact on mortality and our national health they examine various aspects of medicine such as primary care surgery emergency medicine pharmaceuticals and mental illness treatment and convincingly point out the problems that health care actually causes supporting their ideas with statistics and studies from medical and social science literature markle and mccrea argue that the medical model despite its

tremendous budget and hype accomplishes far less than most would think their conclusions should promote critical review and lively discussion among medical consumers as well as among health care professionals and policy makers
