excerpt from wheeler s graded readers a first reader it is of the utmost importance that a child s first steps in reading should be taken in the right direction a child does not learn to speak a word by hearing it once and he will not learn to recognize the printed form of a word by seeing it once he acquired his colloquial vocabulary slowly at first and by the aid of constant repetition in this way and in this way only will he learn to recognize words in print it should not be forgotten that in the early years of his training the child is forming habits of reading and of thought by which he will be aided for the rest of his life or of which he will by and by have to cure himself with painful effort the end of learning to read is the ability to read great books but what shall the child s first reading book be some of our educational wise men say that it should be filled with classic literature and that it should containnothing which is not strictly classic this sounds well but these wise men have failed to produce the strictly classic first reader about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in

excerpt from a first reader designed to teach animated expressive oral reading there is no break between the primer and first reader of this series to make the transition from one book to the other very simple and easy the last thirty new words introduced into the primer are used in the first twenty pages of the first reader in new combinations thus the same vocabulary is being used but the words are in entirely new relations this makes the bridge between the primer and first reader very easy to cross the vocabulary is carried on through the first half of the book in connection with subjects suited to arouse the active interest of children the form of the stories then changes but without the slightest break in the grading of the vocabulary the second part consists of a simple connected story of a kitten called the life of snowball it is arranged in this form so that the children may be gradually led from short simple statements of inter esting objects and actions to the smooth easy sentence forms of the second reader the next part of the book is in still a different form it couples the play idea of the dolls with the true home life of the children themselves here alsothe vocabulary is drawn wholly from objects familiar to children in their own homes thus making the inter est vital and keen each doll is mistress of a certain room in the doll house and a simple title to each story forms another step toward the appreciation of the second reader this reader closes with a short series of stories called the boys club which will be found especially interesting to boys of the first reader age the vocabulary is developed in the same careful way to the very end of the book as in the primer the new words are found at the head of each lesson the first reader and primer stand as com panion books in aim and method and so close is the relation of one to the other that the first reader needs the support of the primer to round out the course as planned note while there are words in this book there are only 255 new words there are 32 words carried over from the primer which makes 287 fundamental words altogether since expressive oral reading is the aim of this series the advantages of the limited vocabulary will readily appear about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

bringing together strands of public discourse about valuing personal achievement at the expense of social values and the impacts of global capitalism mass media and digital culture on the lives of children this book challenges the potential of science and business to solve the world s problems without a complementary emphasis on social values the selection of literary works discussed illustrates the power of literature and human arts to instill such values and foster change the book offers a valuable foundation for the field of literacy education by providing knowledge about the importance of language and literature that educators can use in their own teaching and advocacy work
