Temp Vol 24-N2 2011-04-16

jsl invites the submission of manuscripts that contribute to the exchange of ideas and scholarship about schools and leadership all theoretical and methodological approaches are welcome we do not advocate or practice a bias toward any mode of inquiry e.g qualitative vs quantitative empirical vs conceptual discipline based vs interdisciplinary and instead operate from the assumption that all careful and methodologically sound research has the potential to contribute to our understanding of school leadership we strongly encourage authors to consider both the local and global implications of their work the journal's goal is to clearly communicate with a diverse audience including both school based and university based educators the journal embraces a broad conception of school leadership and welcomes manuscripts that reflect the diversity of ways in which this term is understood the journal is interested not only in manuscripts that focus on administrative leadership in schools and school districts but also in manuscripts that inquire about teacher student parent and community leadership
