the campaigns fought by the ottomans against the british in palestine are often neglected in accounts of the great war yet they are fascinating from the point of view of military history and critically important because of their impact upon the modern middle east edward erickson s authoritative and absorbing account of the four year struggle for control of palestine between 1914 and 1918 of the battles fought for sues sinai gaza jordan and syria opens up this little understood aspect of the global conflict and it does so in a strikingly original way by covering the fighting from the ottoman perspective using turkish official histories and military archives he recounts the entire course of the campaigns from the initial attack by german led ottoman forces on sinai and the sues canal the struggle for gaza and the outbreak of the arab revolt to the british offensives the battle for jerusalem the ottoman defeat at megiddo and the rapid british advance which led to the capture of damascus and aleppo in 1918

2019-03-30

the fifteenth of may 2016 marked the sixty eighth anniversary of the catastrophe which has brought about the worst calamity that could befall a nation in the whole history namely the tragedy of the palestinian people fifty years during which israel has implemented its plots and schemes to force itself as a reality in the region where it worked on embedding its institutions on the arabic lands and building settlements for the jewish immigrants there to achieve this it has usurped the arabic lands forcing out the palestinians from their home

and uprooting them from their own lands despite all this the palestinian preserved his entity and instilled patriotism deep in his sons hearts passing on the flag of the nation from the elder whom the enemies wanted him to perish to the youngster whom they wanted him to sink into oblivion such flag together with devotion and love to one s homeland remained alive purified and kneaded with the martyrs blood this palestinian will always stand firm before all the sufferings pains massacres conspiracies he will always come out stronger because he is the palestinian this study of the history of palestine stresses on the right of every human being to return back to his homeland and to stress that the right of return and ownership of lands and homes is an eternal individual and collective right that no occupation state treaty agreement can gainsay as every occupation no matter how long it lasts and no matter how strong it is is doomed to extinction this study tackles the history of palestine since the dawn of history till our contemporary time the goal of the book is to identify the religion of islam in a simple and easy to understand way also and more important acquaint the reader with many facts about the middle east such facts that reach them distorted and twisted due to zionist meddling that alters and forges incidents the aim of this book is to

Palestine for the Third Time

2021-03-02

palestine for the third time is a book of reportage originally published in poland in 1933 by ksawery pruszyński a young reporter working for a polish newspaper who went to mandate palestine to see

for himself whether the zionist dream of returning to eretz yisrael had a chance of turning into reality travelling widely and talking to people he happened to meet on his way jews arabs committed dreamers and the disaffected he was trying to explain to his readers what he was seeing this book is a unique firsthand account of the early stages in formation of the state and nation of israel but it s not just a nostalgic vignette it resonates powerfully today linking tony judt edward said and amos oz illuminating the hotly debated questions of modern israel

Zionism, Palestinian Nationalism and the Law

2021-11-29

during the last decade of the british mandate for palestine 1939 1948 arabs and jews used the law as a resource to gain leverage against each other and to influence international opinion the parties invoked transformational legal framing to portray the essentially political religious conflict as a legal dispute involving claims of justice injustice and victimisation and giving rise to legal equitable

remedies employing this form of narrative and framing in multiple trials during the first 15 years of the mandate the parties continued the practice during the last and most crucial decade of the mandate the term trial provides an appropriate typology for understanding the adversarial proceedings during those years in which judges lawyers witnesses cross examination and legal argumentation played a key role in the conflict the four trials between 1939 and 1947 produced three different outcomes the one state solution in favour of the palestinian arabs the no state solution and the two state solution embodied in the united nations november 1947 partition resolution culminating in israel s independence in may 1948 this study analyses the role of the law during the last decade of the british mandate for palestine making an essential contribution to the literature on lawfare framing and narrative and the arab israeli conflict

Emplaced Resistance in Palestine and Israel

2021-11-18

the israeli palestinian conflict gravitates constantly around the question of territorial control due to the settler colonial principle

present at the core of the zionist project acknowledging space as a central tool of domination used by the israeli authorities this volume sheds light on the way space can become both a resource for and an outcome of protest with an emphasis placed on the way it is used and produced through practices of resistance by subaltern groups the research relies on a comparative approach relying on data collected in the course of fieldwork conducted between 2012 and 2015 in palestine and israel it focuses on three sites of contention which include the h2 area in hebron the occupied old city under israeli authority the core neighbourhoods of silwan wadi hilwe and al bustan and the unrecognized bedouin village of al araqib in the negev desert through these three case studies the book tackles different strategies that engage with the materiality of space place sense of place territory landscape network and scale showing the mobilization of a real spatial repertoire of contention the different regimes of control give rise to strategies that are first and foremost emplaced i e rooted in the local providing an original comparison between flashpoints of the palestinian resistance against the israeli politics of dispossession and expulsion the book is a key resource for scholars and readers interested in political geography political science sociology and the

over the last two decades the israeli government has implemented policies for the development of east jerusalem these comprise urban revitalization as well as professional training and the promotion of entrepreneurship for the palestinians but how do these policies co exist under israeli settler colonial power this book focuses on the contradiction between the rise of neoliberal development in east jerusalem and the simultaneous continuation of israeli settler colonialism it argues that the combination of settler colonialism and neoliberalism allows for the primitive accumulation of capital to also occur permanently through deceptive soft forms more than this based on theoretical research interviews and an analysis of race and class relations in east jerusalem the book shows that neoliberal development is used to facilitate the reproduction of racial hierarchies settler privileges and the pacification of the palestinian residents where

Statecraft by Stealth

britain relied upon secret intelligence operations to rule mandatory palestine statecraft by stealth sheds light on a time in history when the murky triad of intelligence policy and security supported colonial governance it emphasizes the role of the anglo zionist partnership which began during world war i and ended in 1939 when britain imposed severe limits on jewish immigration and settlement in palestine steven wagner argues that although the british devoted considerable attention to intelligence gathering and analysis they never managed to solve the basic contradiction of their rule a dual commitment to democratic self

government and to the jewish national home through immigration and settlement as he deftly shows britain s experiment in palestine shed all pretense of civic order during the palestinian revolt of 1936 41 when the police authority collapsed and was replaced by a security state created by army staff intelligence that shift wagner concludes was rooted in britain s desire to foster closer ties with saudi arabia just before the start of world war ii and thus ended its support of zionist policy statecraft by stealth takes us behind the scenes of british rule illuminating the success of the zionist movement and the failure of the palestinians to achieve independence wagner focuses on four key issues to stake his claim an examination of the intelligence state per martin thomas s classic empires of intelligence the arab revolt the role of the mufti of jerusalem and the origins and consequences of britain s decision to end its support of zionism wagner crafts a superb story of espionage and clandestine policy making showing how the british pitted individual communities against each other at particular times and why

Covid-19 in Palestine

2024-01-11

israel and palestine were worlds apart during the pandemic that claimed over five million lives globally while palestinians were forced to adopt crude survival measures and endure economic privations israel was praised as a vaccination world leader this book demonstrates how israel utilized the pandemic to tighten surveillance and control over palestine and the palestinians drawing on theories of settler colonialism and the concept of necropolitics the book is a vital testament to the reality of the israeli settler colonial project today the author uses case studies and interviews with palestinians from the gaza strip hebron kufr aqab and the jalazoon refugee camp to understand the lived experiences of palestinians the newest colonial policies are discussed including how israel activated a counter terrorism database that could track citizens and ensure they adhered

levels one in representing israeli and palestinian histories and narratives as connected rather than separate and two by emphasising the links between the current situation in israel and the occupied palestinian territories and the roles that the united kingdom and germany have played historically and continue to play in the region this relational turn constitutes a significant shift in representations of israel and palestine in british and german culture as these depictions move beyond an engagement with the holocaust and jewish suffering at the expense of palestinian suffering and indicate a willingness to represent and acknowledge british and german involvement in israeli and palestinian politics this book offers new ways of thinking about how israel and palestine are imagined and reimaged as topics of cultural and political interest in two countries that have had complicated histories with both israel and palestine histories which are marked by each country s memories of the holocaust and colonialism

The Jewish Community of Acre in Mandatory Palestine

2024-05-20

for a brief moment in the history of acre there was a hebrew community that linked old and new settlements it had a national zionist orientation and consisted of jews of local and mizrachic origin this community is no longer visible in the cityscape and its history has disappeared from the collective zionist memory but it played a role in building the jewish national community in palestine the unusual

history of acre shows how it succeeded in attracting new nationalist settlers the book seeks to illuminate the complexity and diversity of the zionist enterprise in relation to the arab and mixed towns of mandatory palestine by raising questions about the relationship between the history of a place and national history by describing the failure of the hebrew settlement in the mandate territory of acre the book views the zionist project as a fascinating intersection between the dreams of those who created the leading narratives and between local interests and the unique geographical conditions of the region
