found between chapters 6 and 7 serves as a mid book review for students preparing to take a final exam that covers the first seven chapters finally we have produced a text that will accommodate those students placing into the second term of a two term sequence here is where the review chapter is most valuable it gives the students an opportunity to check that they have all of the background required to begin in chapter 7 if the students struggle with any of the material in the review chapter they are referred to the appropriate section for further review for courses in beginning
