Faulkner was one of the few major writers of the period following World War I to retain a sense of the place of abstractions in life and in art. Faulkner saw life as a process of flux and change and abstractions as a means of either denying actuality or of coping with change and providing a solid touchstone in the flux. William Faulkner: The Abstract and the Actual is the first critical study of Faulkner to examine in depth the theme of evasion and distortion of existence through abstractions, a theme that can be found to a greater or lesser degree in every Faulkner novel. The book covers the entire seventeen-novel canon and includes discussions of a significant number of short stories. Its thematic organization points out the unity and continuity of Faulkner's work, examining the interrelationships between Faulkner's fiction and modern thinking. Panthea Broughton shows the insight Faulkner had into the philosophical problem of the abstract versus the actual. She concludes that the central dilemma in Faulkner's fiction, resistance to flux or change, is also one of the salient problems of the modern world. This is a well-organized, gracefully written account of a significant aspect of Southern fiction, and it contains information and incisive commentary that one can find nowhere else. Thomas Daniel Young: Many Southern Writers Imagined the South as a Qualified Dream of Arcady. They retained the glow of the Golden Land as a device to expose or rebuke, to confront or escape the complexities of the actual times in which they lived. The Dream of Arcady examines the work of post-Civil War Southern writers who criticize the myth of the South as pastoral paradise, sooner or later in all their idealized worlds. The idyllic vision fades in an inescapable moment of awakening, this moment which is central to Mackethan's study. Produces an atmosphere pastoral in mood and implications. Her perspective analysis juxtaposes the responses of Sidney Lanier, Joel Chandler Harris, and Thomas Nelson Page, who contributed to yet hope to transcend sectionalism with the ambivalent views of Black writers Charles Chesnut and Jean Toomer. Considering the writings of the agrarians William Faulkner and Eudora Welty, Mackethan then concludes her study by questioning whether the Arcadian dream still serves the artist of our era as a frame for artistic and ideological purposes. In 1977, Elizabeth Lesser cofounded the Omega Institute, now America's largest adult education center focusing on wellness and spirituality, working with many of the eminent thinkers of our times, including Zen masters, rabbis, Christian monks, psychologists, scientists, and an array of noted American figures from L.A. Lakers coach Phil Jackson to author Maya Angelou. Lesser found that by combining a variety of religious, psychological, and healing traditions, each of us has the unique ability to satisfy our spiritual hunger. In the Seeker's Guide, she synthesizes the lessons learned from an immersion into the world's wisdom traditions and intertwines them with illuminating stories from her daily life, recounting her own trials and errors and offering meditative exercises. She shows the reader how to create a personal practice, gauge one's progress, and choose effective spiritual teachers and habits, warm, accessible, and wise. This book provides directions through the four landscapes of the spiritual journey: the mind, learning meditation to ease stress and anxiety; the heart, dealing with grief, loss, and pain; opening the heart and becoming fully alive; the body, returning the body to the spiritual fold to heal and overcome the fear of aging and death; the soul, experiencing daily life as an adventure of meaning and mystery. 2023-24 NTA UGC NET JRF English Solved Papers 2024-25 NTA UGC NET JRF English Solved Papers 2023-24 UGC NTA NET SLET JRF English Solved Papers.
