Heaven on Earth 2003-10-30 the temple stood at the very heart of israelite religion and casts its shadow across christian faith and spirituality the temple is the biblical symbol par excellence of the glory of god s presence with his people any christian theology that attempts to grapple with god s indwelling of creation with heaven on earth must get to grips with the meaning of the temple and its fulfillment in christ and his body the church in this book evangelical scholars examine the temple in all the key old and new testament documents from genesis to revelation and then consider its contemporary significance this book not only makes an important contribution to the study of the temple in various biblical texts but also to the project of a unified biblical theology and its implications for systematic theology

Undress Me in the Temple of Heaven 2014-07-02 temple of heaven and earth is the focus of a study of earth and cosmic energy energy affects everything from the physics of the universe down to the miracle of life on earth modern corporate science uses energy to power mechanisms ancient science used energy to heal cure and support health but more especially to promote inspiration truth in speech communication knowledge and the gift of the joy of life both ancient and modern science traditions and testimony are woven together to give the reader an opportunity to come to their own conclusions much of the confusion rests in the multiplicity and duplication of different names and concepts for the same thing astronomical phenomena transfers modulates and stores energy according to random and chaotic movement as well as orderly cyclical progressions which can be cataloged by geometry numbers and proportions therefore ancient people accepted a universe that is half chaos and half order which resulted in the perpetual creation of change motion and especially energy this cosmic energy was captured by the earth to fuel earth energy sites that promoted health and inspiration to mankind

Heaven on Earth 2004 as more and more is being discovered about the beginnings of christianity a whole new understanding of the context of christian origins is emerging any serious student now needs a knowledge of the traditions of the temple this book breaks further new ground showing how the symbols and rituals of the temple shaped the lives of the early christians and illustrates the striking relevance of temple theology to the new testament as there are no ancient texts of direct bearing the influence of the temple cult has to be reconstructed by drawing on the increasing number of non biblical texts now available these include those written in the early churches fragments from among the dead sea scrolls and jewish text written in the early christian period piece by piece the world of the temple is emerging from this material through this close study of the pseudepigrapha and other non canonical writings margaret barker examines four symbols of temple theology light life blood and the robes of glory she shows how details missing from the old testament descriptions can be recovered from other ancient texts to throw new light upon many significant passages of the bible

Temple of Heaven & Earth 2016-06-04 in this book first published in 1991 the prolific and innovative british biblical scholar margaret barker sets out to explore the origins and the afterlife of traditions about the temple in judaism using evidence from the deuterocanonical and pseudepigraphic texts qumran and rabbinic material as well as early christian texts and liturgies she advances a host of radical and suggestive theories including the following 1 apocalyptic writing was the temple tradition 2 temple buildings were aligned to establish a solar calendar thus explaining the astronomical texts incorporated in 1 enoch 3 the temple symbolism of priest and sanctuary antedated the eden stories of genesis 4 the temple buildings depicted heaven and earth separated by a veil of created matter 5 the throne visions the basis of the later merkavah mysticism originated as high priestly sanctuary experiences first attested in isaiah but originating in the royal cult when king figures passed beyond the temple veil from earth into heaven from immortality to the resurrected state and then returned

Ritual and Ceremonious Buildings 2003-01-22 the temple of jerusalem became the center in ancient israel of a whole group of concepts concerning the divine presence it was regarded as the very dwelling place of god the earthly throne of the heavenly king in order to understand the origin of this belief dr clements examines the canaanite notions of divine dwelling places and the early ideas of god s presence in israel the origins of the israelite temple in jerusalem are then considered and the nature of its rites and symbolism particular attention is

given to the relationship between the temple of the davidic monarchy and its significance for the political history of the israelite nation the destruction of the temple in 586 bc severely challenged the traditional views about its meaning and led ultimately to great changes in the jewish understanding of the divine presence jerusalem and the religious ideas surrounding it became increasingly part of an eschatological hope dr clements shows how this was important for the early christian church which rejected the jerusalem temple and which asserted that the divine presence had been revealed to man in jesus christ and was experienced in the church through the holy spirit

China and Japan 1879 ancient india and egypt were the oldest group of nations the egyptian pyramids antedate the upheaval of the sahara and other deserts but there is no comparison between the egypt of old with its perfection of art science and religion its glorious cities and monuments its swarming the egyptian art of writing was perfect and complete from the very first it was used as early as the days of menes the protomonarch before greece came into existence the arts with the egyptians were already ripe and old ancient greece owes everything to egypt the greeks learned all they knew including the sacred services of the temple from the egyptians and because of that their principal temples were consecrated to egyptian divinities orpheus was a disciple of moses pythagoras herodotus and plato owe their philosophy to the same temples in which the wise solon was instructed by the priests if chaldaea assyria and babylon presented stupendous and venerable antiquities reaching far back into the night of time persia was not without her wonders of a later date the persian empire was truly the garden of the world ecbatana the cool summer retreat of the persian kings was defended by seven encircling walls of hewn and polished blocks the interior ones in succession of increasing height and of different colours in astrological accordance with the seven planets the sublime profundity of the magian precepts is beyond the reach of modern materialistic thought even the much admired etruscan paintings and decorative borders found on greek vases were but copies from egyptian vases their figures can be seen on the walls of a tomb of the age of amenhotep i a period at which greece was not even in existence egypt grown grey in her wisdom was so secure of her acquirements that she did not invite admiration and cared no more for the opinion of the flippant greek than we do today for that of a fiji islander for she was much older and grander than greece the egyptian zodiac is at least 75 millennia old the greek 17 millennia old egypt pressed her own grapes made wine and brewed her own beer the superiority of the egyptian lyre over the grecian is an admitted fact pythagoras learned music in egypt and made a regular science of it in italy the lyre harp and flute were used for sacred concerts for festive occasions they had the guitar the single and double pipes and castanets for troops and during military service they had trumpets tambourines drums and cymbals amenoph ii who reigned at thebes long before the trojan war is represented as playing chess with the queen in india the game is known to have been played at least 5 000 years ago the egyptians had their dentists and ophthalmologists and no doctor was allowed to practice more than one specialty phoenician sails whitened the indian ocean as well as the norwegian fiords the phoenicians were the earliest navigators of the world they were

cyclopes a one eyed race of giants they founded most of the colonies of the mediterranean and visited the arctic regions whence they brought accounts of eternal days without a night which homer has preserved for us in the odyssey homer s odyssey surpasses in fantastic nonsense all the tales of the arabian nights combined nevertheless many of his myths are now proved to be something else besides the creation of the old poet s fancy bel and the dragon apollo and python osiris and typhon are all one and the same and have travelled far and wide the religious customs of the mexicans peruvians and other american races are identical with those of the ancient phœnicians babylonians and egyptians there was a time when asia europe africa and america were covered with the temples sacred to the sun and the dragons it is true that the phœnicians represented the sun under the image of a dragon but so did all the other people who symbolized their sun gods initiatory rites and ceremonies were performed in crypts catacombs and temples interlinked by subterranean passages running in every direction the perfect identity of rites ceremonies traditions and even the names of deities among mexicans babylonians and egyptians is ample proof of pre historic south america being peopled by a colony which mysteriously found its way across the atlantic we believe the story of the atlantis to be no fable and maintain that at different epochs of the past huge islands and even continents existed where now there is but a wild waste of waters at a remote epoch a traveller could traverse what is now the atlantic ocean almost the entire distance by land crossing in boats from one island to another where narrow straits then existed there never was nor can there be more than one universal religion the aztecs resembled the ancient egyptians in civilization and refinement among both peoples magic or the arcane natural philosophy was cultivated to the highest degree all ancient religious monuments in whatever land are the expression of the same identical thought the key to which is in the esoteric doctrine the grandiose hindu ruins of ellora in the dekkon the mexican chichén itzá in yucatán and the still grander ruins of copán in guatemala were built by peoples moved by the same religious ideas and who had reached an equal level of highest civilization in arts and sciences the ruins of the past egyptian splendour deserve no higher eulogium than those of siam if the same workmen did not lay the courses in both countries we must at least think that the secret of this matchless wall building was equally known to the architects of every land nagkon wat is grander than anything left to us by athens or rome on its sculptured walls there are several repetitions of dagon the man fish of the babylonians of the kabeirian gods of samothrace as well as of the reputed father of the kabeiroi vulcan with his bolts and implements in another place we find vulcan recognizable by his hammer and pincers but under the shape of a monkey as usually represented by the egyptians the ramayana itself the famous epic poem is but the original of homer s iliad the beautiful paris carrying off helen looks very much like ravana king of the giants eloping with sita rama s wife herodotus assures us that the trojan heroes and gods date in greece only from the days of the iliad in such a case even hanuman the monkey god would be but vulcan in disguise many historians claim that the jews were similar or identical with the ancient phœnicians however the latter were beyond any doubt an Æthiopian race if the jews were in the twilight of history phœnicians the latter may be traced to the nations who used the old sanskrit language all ancient temples and buildings belong to the age of hermes trismegistus and however comparatively modern or ancient the temples may seem their mathematical proportions correspond perfectly with the egyptian religious edifices the cold stony lips of the once vocal memnon and of these hardy sphinxes keep their secrets well who will unseal them who of our modern materialistic dwarfs and unbelieving sadducees will dare to lift the veil of isis the babylonian nebo the thoth of memphis the greek hermes were all gods of esoteric wisdom ammonius saccas declared that all moral and practical wisdom was contained in the books of thoth hermes trismegistus thoth means a college school or assembly and the works of that name were identical with the doctrines of the sages of the far east thoth hermes therefore never was the name of a man but a generic title it is the voice of egypt s great hierophants that speaks even in the time of plato hermes was already identified with the thoth of the egyptians but in reality thoth hermes is simply the personification of
