slavery geography and empire in nineteenth century marine landscapes of montreal and jamaica is among the first slavery studies books and the first in art history to juxtapose temperate and tropical slavery charmaine a nelson explores the central role of geography and its racialized representation as landscape art in imperial conquest one could easily assume that nineteenth century montreal and jamaica were worlds apart but through her astute examination of marine landscape art the author re connects these two significant british island colonies sites of colonial ports with profound economic and military value through an analysis of prints illustrated travel books and maps the author exposes the fallacy of their disconnection arguing instead that the separation of these colonies was a retroactive fabrication designed in part to rid canada of its deeply colonial history as an integral part of britain s global trading network which enriched the motherland through extensive trade in crops produced by enslaved workers on tropical plantations the first study to explore james hawkins s jamaican landscapes and william clark s antiguan genre studies in depth it also examines the montreal landscapes of artists including thomas davies robert sproule george heriot and james duncan breaking new ground nelson reveals how gender and race mediated the aesthetic and scientific access of such mainly white male artists she analyzes this moment of deep political crisis for british slave owners between the end of the slave trade in 1807 and complete abolition in 1833 who employed visual culture to imagine spaces free of conflict and to alleviate their pervasive anxiety about slave resistance nelson explores how vision and cartographic knowledge translated into authority which allowed colonizers to civilize the terrains of the so called new world while belying the oppression of slavery and indigenous displacement

many new states entered the united states around 200 years ago but only missouri almost killed the nation it was trying to join when the house of representatives passed the tallmadge amendment banning slavery from the prospective new state in february 1819 it set off a two year political crisis in which growing northern antislavery sentiment confronted the aggressive westward expansion of the peculiar institution by southerners the missouri crisis divided the u s into slave and free states for the first time and crystallized many of the arguments and conflicts that would later be settled violently during the civil war the episode was as thomas jefferson put it a fire bell in the night that terrified him as the possible knell of the union drawn from the of participants in two landmark conferences held at the university of missouri and the city university of new york those who contributed original essays to this second of two volumes a group that includes young scholars and foremost authorities in the field answer the missouri question in bold fashion challenging assumptions both old and new in the long historiography by approaching the event on its own terms rather than as the inevitable sequel of the flawed founding of the republic or a prequel to its near destruction this second volume of a fire bell in the past features a foreword by daive dunkley contributors include dianne mutti burke christopher childers edward p green zachary dowdle david j gary peter kastor miriam liebman matthew mason kate masur mike mcmanus richard newman and nicholas wood
