literary research and british postmodernism is  
a guide for scholars that aims to connect the  
complex relationships between print and  
multimedia technological advancements and the  
influence of critical theory that converge in  
postwar british literature this era is unique  
in that strict boundaries between fiction  
nonfiction multimedia and print are not useful  
postmodern literature is defined by the  
breaking down of boundaries as a reaction to  
modernism and requires an innovative  
multifaceted approach to research in this  
guide the authors explore these complex  
relationships and offer strategies for  
researching this new period of literature this  
book takes a holistic approach to postmodern  
literature that recognizes the way in which  
digital media film critical theory popular  
music and more traditional print sources are  
inextricably linked through this approach the  
authors present a broad view of postmodernism  
that includes a wide variety of british authors  
writing in the last half of the 20th century  
this handbook of functional beverages and  
human health

twentieth century the book's definition of postmodern includes any British literature following World War II that engages issues central to postmodern theory including the social construction of gender sexuality and power the subjectivity of truth technology as a social force intertextuality metafiction post colonial narrative and fantasy this guide aims to aid researchers of postwar British literature by defining best practices for scholars conducting research in a period so broadly varied in the way it defines literature
