its ten year aftermath as a global event that directly led to the shockwaves being felt around the world today we live in a world where dramatic shifts in the domestic and global economy command the headlines from rollbacks in us banking regulations to tariffs that may ignite international trade wars but current events have deep roots and the key to navigating today s roiling policies lies in the events that started it all the 2008 economic crisis and its aftermath despite initial attempts to downplay the crisis as a local incident what happened on wall street beginning in 2008 was in fact a objectives through case studies of the united states saudi arabia and russia peter s henne demonstrates that religion although not as high profile or well funded a

tool as economic sanctions or threats of military force remains a potent weapon in international relations public policy analysis often minimizes the role of religion favoring military or economic matters as the important arenas of policy debate as henne shows however at transformative moments in political history states turn to faith based appeals to integrate or fragment international coalitions henne highlights saudi arabia s 1960s rivalry with egypt the united states s post 9 11 leadership in the global war on terrorism and the russian federation s contemporary expansionism both the 48 group club a china friendly group of former uk ambassadors and prime ministers were embarrassed by their connections to a club founded by key members of the chinese communist party of britain who s chair stephen perry suggested that china s approach to world order and rule was superior to democracy and the uk should embrace them asked if he believed the lawsuit was an effort by the chinese government to stop the publication of his book mr hamilton said i have no evidence of that although it should be noted that the chinese government has used lawfare in the past lawfare is the use of legal action as part of a campaign against a target governments around the world are in the early stages of a repositioning of power as china rises and the united states is drawn into direct competition however some are beginning to wonder whether for all of the economic benefits engaging with china carries unseen dangers the chinese communist party is now determined to reshape the world in its image the party is not interested in democracy it divides the world into those who can be won over and enemies they have already lured many leaders to their corner others are weighing up a devil s bargain through its exercise of sharp power the party is weakening global institutions aggressively targeting individual corporations and threatening freedom of expression from the arts to academia at the same time security services are increasingly worried about incursions into our communications infrastructure indeed the vaunted great firewall is a temporary measure only necessary until the party has transformed the global conversation in december 2019 the ccp s obsession with social control led it to suppress expert warnings about the coronavirus outbreak in wuhan most alarming for the west was the active collaboration of the who in spreading the ccp s version of events it was a shocking example of the widespread co optation of global institutions by the ccp as described in hidden hand as soon as beijing thought it had the virus under control it began a global propaganda blitz presenting china s authoritarian system as a model for the rest of the world western media and pundits soon began echoing the party line hidden hand is a detailed and devastating expose of chinese communist party influence in the west including canada it could not arrive at a better time in canada with relations between ottawa and beijing reaching breaking point after two years of mounting tension china s bullying behaviour and the mobilising of people loyal to the chinese communist party on the streets of canada s cities has caused deep disquiet among canadians but the government seems paralyzed hidden hand shows how canada s political business academic and cultural elites have over many years been co opted by the chinese communist party and its agencies they are confused about what is in canada s national interests and frequently do beijing s bidding hidden hand shows how the chinese communist party represents a profound threat to western democracy it s vital reading for canadians who want to understand what is really happening and points to a way of carving out a new diplomatic course with china but the question remains does the government have the will to stand up to beijing and its proxies in canada or is it too late the political shocks of the 2014 ukrainian crisis have been felt in many former soviet countries not least latvia where over 35 per cent of the population are native russian

speakers at a time when analysts and commentators are unsure about russia's future plans to intervene on behalf of their compatriots this study provides a detailed political and cultural analysis of russian speaking identity in latvia by using russian speakers in latvia as a specific case study this volume also offers a fresh methodological approach to the study of discourses and discursive strategies it outlines a coherent methodology to study the evolution of discourses over time rather than a single de contextualised and static time period drawing on media analysis elite interviews focus groups and survey data this volume situates the identity strategies of russian speakers within the transformations of the post soviet era by assessing political cultural and economic links with their home state latvia and their potential kin state russia it offers important insights into the complex identity positions of latvia's russian speakers and how these positions have evolved in latvia since the late soviet period at a historical moment when many will question the loyalty of russian speakers to their various host states this book provides a timely scholarly account of ethnic politics in latvia it also offers a methodological framework that allows for the mapping of trends in discursive strategies exploring how they evolve through time
