EU Private International Law 2010 this book deals with the interconnection between the brussels i recast and rome i regulations and addresses the question of uniform interpretation a consistent understanding of scope and provisions is suggested by the preamble of the rome i regulation without doubt it is fair to presume that the same terms bear the same meaning throughout the regulations the author takes a closer look at the regulations systems guiding principles and their balance of flexibility and legal certainty he starts from the premise that such analysis should prove particularly rewarding as both legal acts have their specific dna the brussels i recast regulation has a procedural focus when it governs the allocation of jurisdiction and the free circulation of judgments the multilateral rules under the rome i regulation by contrast are animated by conflict of laws methods and focus on the delimitation of legal systems this fourth volume in the short studies in private international law series is primarily aimed at legal academics in private international law and advanced students but it should also prove an intriguing read for legal practitioners in international litigation christoph schmon is a legal expert in the fields of private international law consumer law and digital rights after serving in research positions at academic institutes in vienna and london he focused on eu policy and law making he is appointed expert of advisory groups to the eu commission *European Union Legislation 2012-2013* 2012-08-17 in ten years 80 per cent of the legislation related to economics maybe also to taxes and social affairs will be of community origin this declaration has been largely quoted paraphrased and deformed by different authors creating a persistent myth according to which 80 of the legislative activity of the national legislatures would soon be reduced to the simple transposition of european norms this book addresses the topic of the scope and impact of europeanization on national legislation as a part of the europeanization debate which raises normative concerns linked to the democratic deficit debate the state of the art shows that there are many assumptions and claims on how european integration may affect

national legislation and more generally domestic governance but that there is a lack of solid and comparative data to test them the aim of the book is to give a solid and comparative insight into europeanization focusing on effective outcomes in a systematic way this book analyzes the period 1986 2008 and includes an introduction a global overview of european legislative activities which set the background for europeanization of national legislatures 9 country contributions 8 eu member states switzerland including systematic comparative and standardized data tables and figures and a conclusion with a comparative analysis of the european and domestic reasons for europeanization all national contributions conclude that europeanization of national legislation is much more limited than assumed in the literature and public debate it is limited to 10 to 30 of laws depending on the country far less than the 80 predicted by jacques delors and mentioned daily by medias and public opinion leaders to demonstrate eu domination on member states beside that general statement the various chapters propose a deep insight on eu constraint over national legislation providing much information on the kind of laws and policies that are europeanized the evolution of this process through time the impact of europeanization on the balance of powers and the relations between majority and opposition at national level the strategies developed by national institutions in that context and many other issues making the book of interest to academics and policy makers concerned with europeanization and national legislation

Customs Law of the European Union 2020-03-12 this book attempts to systematise the present interrelationship between fundamental rights and the eu internal market in the field of positive integration its intention is simple to examine the

way in which and the extent to which fundamental rights protection is realised through eu internal market legislation to that end the analysis is conducted around four rights or sets of rights data protection freedom of expression fundamental labour rights and the right to health the book assesses not only what substantive level of protection is achieved for these fundamental rights but it also estimates whether there is a fundamental rights culture that informs current legislative practice finally it asks the overarching question whether the current state of harmonisation amounts to a fundamental rights policy the book offers a much more varied picture of the eu s fundamental rights policy in and through the eu internal market than perhaps initially expected moreover it builds the case for a more conscious approach to dealing with and enhancing fundamental rights protection in and through internal market legislation and advocates a leading role for the legislature in the establishment of an internal market that is firmly based on respect for fundamental rights résumé de l éditeur

implementation by companies requires the negotiation of agreements between employers and employees principally on the choice between a one tier or two tier system of board structure while the ecs thereby promotes flexible solutions tailor made to company requirements it has failed to achieve full harmonisation of eu company law this book provides a comprehensive analysis of the history structure legal basis and likely impact of the ecs examining its evolution over some 30 years of development and its chances for integrating diverse models of corporate governance across the european economic area the book explores the implications of the ecs for employee participation at various levels in the european company with country case studies drawn from greece slovenia and the uk it also analyses certain legal issues including taxation and the position of companies located in countries without existing systems of employee board level participation
