 following in the tracks of the author s well known alfa dohc tuning manual jim
 kartalamakis describes all kinds of useful information and techniques to increase power performance
 and reliability of v6 alfas and their engines this book is the result of much research and firsthand
 experience gained through many projects concerning alfa v6 rear wheel drive models from the gtv6
 series to the last of the 75 3 0 models a wealth of completely new information can be found here
 regarding cylinder head mods big brake mods lsd adjustment procedure suspension modifications for
 road and track electrical system improvements flowbench diagrams dyno plots and much more each
 edition includes information for that year and several previous years popular science gives our readers
 the information and tools to improve their technology and their world the core belief that popular
 science and our readers share the future is going to be better and science and technology are the
 driving forces that will help make it better the rover 800 grew out of a pioneering collaboration
 between rover in britain and honda in japan during the 1980s this book tells the story of how the two
 companies worked together to produce the rover 800 and its cousin the honda legend for those who
 remember the big front wheel driver rover with affection this book sets out the full history looking at
 the design and development of all models saloons fastbacks and coupes the sterling in north america
 comtemporary aftermarket modifications police usage and export variants there is a helpful chapter on
 buying an owning a rover 800 and the book is illustrated with 250 colour and black white photographs
