Naval Forces' Capability for Theater Missile Defense

2001-05-01

at the request of the chief of naval operations the national research council under the auspices of the naval studies board established a committee to assess the department of the navy s current and future naval theater missile defense tmd capabilities the committee for naval forces capability for theater missile defense first convened in april 2000 and met approximately 2 days a month for 8 months this report is based on the information presented to the committee during that period and on the committee members accumulated experience and expertise in military operations systems and technologies

The Role of Experimentation in Building Future Naval Forces

2004-12-08

the department of defense is in the process of transforming the nation s armed forces to meet the military challenges of the 21st century currently the opportunity exists to carry out experiments at individual and joint service levels to facilitate this transformation experimentation which involves a spectrum of activities including analyses war games modeling and simulation small focused experiments and large field events among other things provides the means to enhance naval and joint force development to assist the navy in this effort the chief of naval operations cno asked the national research council nrc to conduct a study to examine the role of experimentation in building future naval forces to operate in the joint environment the nrc formed the committee for the role of experimentation in building future naval forces to perform the study

Naval Presence and the Interwar US Navy and Marine Corps

2023-07-26

this book examines the us navy and marine corps during the interwar years from a new perspective rather than focusing on the technologies developed the wargames conducted or the results of the now famous fleet problems this work analyzes the global deployments of the rest of the us fleet by examining the annual reports of the secretary of the navy the chief of naval operations and the commandant of the marine corps over 20 years the book traces the us ships squadrons and fleets conducting naval diplomacy and humanitarian missions maritime security patrols and deployments for deterrent effect across the world s oceans despite the common label of the interwar years as isolationist the deployments of the us navy and marine corps in that period were anything but isolated the majority of the literature on the era has a narrow focus on preparation for combat and wartime which provides an incomplete view of the history of us naval power and also establishes a misleading set of precedents and historical context for naval thinkers and strategists in the contemporary world offering a wider and more complete understanding of the history of the u s navy and marine corps from 1920 to 1939 this book demonstrates the tension between the execution of peacetime missions and the preparation for the next war while also offering a broader understanding of american naval forces and their role in american and global history this book will be of much interest to students of naval and military history sea power and international history

Naval Forces of the World

1984-01

the growth of the terrorism threat to the nation s security has created significant strategic challenges for u s armed forces in fighting this global war on terrorism gwot for the navy the challenges have centered on developing maritime capabilities to prosecute the gwot as far forward as possible to assist the navy s planning in this area the former chief of naval operations requested the nrc to conduct an assessment of the adequacy of and prospects for improving the role of naval forces in the gwot the study developed a defense in depth framework as the organizing principle for the report the report contains information as described in 5 u s c 552 b and therefore could not be released to the public in its entirety the public version consists of an executive summary that presents an assessment of the transformation of naval forces for addressing the gwot

a brief description of the defense in depth framework and a list of findings and major recommendations

The Role of Naval Forces in the Global War on Terror

2007-06-12

this illustrated history covers the history of the u s navy in the middle east america s interests in the middle east southwest asia and eastern africa date almost to the founding of the nation since world war ii the navy has been the first line of defense for these interests from the establishment of the middle east force mef in 1949 through the beginning of the 21st century the u s navy served as a force for stability and peace in the region

Information Concerning the U.S. Navy and Other Navies

1925

this new volume provides a comprehensive analysis of both the theory and practice of operational warfare at sea the book is unique in using diverse sources and examples to present a comprehensive topical description and analysis of the key components of operational warfare at sea today it opens with a survey of the emergence of operational warfare at sea since the end of the napoleonic wars going on describe and analyze the objectives of naval warfare at the operational level and methods of employment of naval forces for accomplishing these objectives the book explains the specifics of operational functions in a maritime theatre discusses the personality traits and professional education required for successful naval operational commanders and explores naval operational command and control in both peacetime and war closing with predictions for the future of operational warfare at sea this book serves as a primer of how to plan prepare and execute major naval operations and campaigns for naval commanders and their staffs but will also be of interest to advanced students of naval history strategic studies and military history in general

Naval Forces for the 21st Century

1993*

america s interests in the middle east southwest asia and eastern africa date almost to the founding of the nation since world war ii the united states navy has been the first line of defense for these interests from the establishment of the middle east force in 1949 through the beginning of the twenty first century the u s navy served as a force for stability and peace in the region the navy s presence helped prevent regional crises from escalating into wars enforce international sanctions and minimize damage done by regional conflicts to american and allied interests when there has been no other alternative the navy has gone to war by sea air and land to defend these interests the navy s presence also resulted in peaceful operations such as humanitarian assistance maritime rescue and military exercises with regional allies early in the twenty first century the u s naval forces central command fifth fleet area of responsibility encompassed about 7 5 million square miles of the earth s surface including the arabian gulf north arabian sea gulf of oman gulf of aden red sea and parts of the indian ocean this expanse comprised 27 countries and three critical chokepoints at the strait of hormuz the sues canal and the bab al mandeb at the southern tip of yemen the navy owes its success in this region to the patriotism professionalism pride hard work and self sacrifice of the officers and enlisted men and women assigned to u s naval forces central command fifth fleet this is their story this illustrated history explains why the navy is present in the middle east how long it s been in the region and what it s been doing there america s interests in the middle east southwest asia and eastern africa date almost to the founding of the nation since world war ii the navy has been the first line of defense for these interests from the establishment of the middle east force mef in 1949 through the beginning of the 21st century the u s navy served as a force for stability and peace in the region the navy s presence helped prevent regional crises from escalating into wars enforce international sanctions and minimize damage done by regional conflicts to american and allied interests the work concentrates on the navy s command relationships roles and missions and operations in the period leading up to the first gulf war the war itself and the wars in afghanistan and iraq

Anchor of Resolve

2007-12-01

since the second world war five navies are known to have acquired nuclear weapons and naval forces and activities around the world have become increasingly important and dangerous however there has been no serious consideration of naval arms control for more than forty years sipri gathered together a group of experts from eight nations to consider the problems of naval forces and the possibilities for arms control this book is a product of that conference and it presents for the first time a broad and detailed assessment of the dangers of the naval arms race problems with arms control possible approaches confidence building measures and verification technologies

Brassey's Naval Annual

1888

great power competition has returned to the world stage and the u s navy finds itself in the forefront of u s efforts to demonstrate national resolve the u s navy case studies in its past present and future argues that the challenge of determining the future structure and operation of the fleet can be best achieved through an examination of its relevant past experience as well as from current operations of the navy after years of uncertainty as to its purpose and missions the rise of china and russian provocations now require u s officials to transform the fleet and its way of employing it the contributors to this edition provide case studies of past present and future challenges that the u s navy has and will need to overcome as it reconsiders how it will restructure the fleet and reconsider its prevailing concepts of operations contributors examine past challenges to structuring the fleet and its prevailing concepts of operation based on this foundation case studies propose how navy leadership should consider developing and employing the fleet in future the chapters in this book were originally published as a special issue of defense security analysis

Operational Warfare at Sea

2008-10-27

this illustrated history explains why the navy is present in the middle east how long it s been in the region and what it s been doing there america s interests in the middle east southwest asia and eastern africa date almost to the founding of the nation since world war ii the navy has been the first line of defense for these interests from the establishment of the middle east force mef in 1949 through the beginning of the 21st century the u s navy served as a force for stability and peace in the region the navy s presence helped prevent regional crises from escalating into wars enforce international sanctions and minimize damage done by regional conflicts to american and allied interests the work concentrates on the navy s command relationships roles and missions and operations in the period leading up to the first gulf war the war itself and the wars in afghanistan and iraq

Anchor of Resolve

2013-11

this edited volume explores stability security transition and reconstruction operations sstr highlighting the challenges and opportunities they create for the us navy the book argues that sstr operations are challenging because they create new missions and basing modes and signal a return to traditional naval methods of operation mission accomplishment requires collaboration with a wide range of actors representing governmental non governmental and commercial organizations which often creates politically and bureaucratically charged issues for those involved however although from a traditional warfighting perspective stability operations might be viewed as having little to do with preparing for high intensity conventional combat these kinds of operations in fact correspond to traditional missions related to diplomacy engagement maritime domain awareness piracy and smuggling and intervention to quell civil disturbances sstr operations can be therefore depicted as a return to traditional naval operations albeit operations that might not be universally welcomed in all quarters

Security at Sea

1990

as the u s navy enters the twenty first century many of the ships aircraft weapons and tactics it employed so successfully during the cold war will no longer be cost effective or even effective future battlefields will shift the locus of naval action from the high seas into littoral waters demanding sustained operations in relatively narrow shallow waters naval forces in the twenty first century must not only meet the traditional requirements of command of the sea ships planes troops and bases carrying out forward presence crisis response strategic deterrence and sealift they must now put these together to obtain the four key operational capabilities of littoral warfare command control intelligence and surveillance and communication battlespace dominance power projection and force sustainment the core of the new u s strategic concept is power projection and it envisions naval forces directly leading army and air force elements to influence events ashore most probably in the third world and this navy must be cost effective

army and navy uniforms and insignia by dion williams published by good press good press publishes a wide range of titles

that encompasses every genre from well known classics literary fiction and non fiction to forgotten or yet undiscovered gems of world literature we issue the books that need to be read each good press edition has been meticulously edited and formatted to boost readability for all e readers and devices our goal is to produce ebooks that are user friendly and accessible to everyone in a high quality digital format

Anchor of Resolve: a History of U. S. Naval Forces Central Command/Fifth Fleet

2019-08-22

owing to the expansion of network centric operating concepts across the department of defense dod and the growing threat to information and cybersecurity from lone actors groups of like minded actors nation states and malicious insiders information assurance is an area of significant and growing importance and concern because of the forward positioning of both the navy s afloat and the marine corps expeditionary forces ia issues for naval forces are exacerbated and are tightly linked to operational success broad based ia success is viewed by the nrc s committee on information assurance for network centric naval forces as providing a central underpinning to the dod s network centric operational concept and the department of the navy s don s forcenet operational vision accordingly this report provides a view and analysis of information assurance in the context of naval mission assurance

Naval Peacekeeping and Humanitarian Operations

2008-10-29

it is a century since mahan and his disciples taught the world that a battlefleet was indispensable to a great power great and not so great powers still keep powerful navies today but we have no generally accepted principles to explain why in this book historians and naval officers from britain the united states and other countries study the use of naval power over a century and ask what it is for and what it can do it will be essential reading for modern historians policy makers and strategists

Sea Power in the Twenty-First Century

1997-09-16

many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce and increasingly expensive we are republishing these classic works in affordable high quality modern editions using the original text and artwork

Army and Navy Uniforms and Insignia

2023-11-19

maritime strategy and naval power in the mediterranean touches on migration the environment technology economic power international politics and law as well as calculations of naval strength and diplomatic manoeuvre these broad and fundamental themes are explored in this volume

Information Assurance for Network-Centric Naval Forces

2010-03-11

a brilliant concise and perhaps best single volume history of the second world war at sea written by veteran historian e b potter during his time as resident historian at the united states naval academy this history is filled with action and analysis as the conflict raged from the pacific to the north sea the author takes the action in each theater for the purposes of clarity but masterfully links the actions and events together to preserve the historical integrity of the work a classic of naval history

Naval Power in the Twentieth Century

2016-07-27

prepared for the subcommittee on sea power of the u s senate committee on armed services addresses the question of how much money the u s department of the navy needs to sustain its current force of about 300 ships and 3 500 aircraft examines the navy s missions its modernization plans and the budgetary implications of supporting the service s current and planned fleets through 2020 it also looks at four alternative force structures that the navy might be able to sustain at

roughly its current funding level of 90 billion adjusted for inflation charts and tables

On the Coast of France - The Story of the United States Naval Forces in French Waters

2008-11-20

admiral gorshkov has transformed the soviet fleet into a world sea power for the first time in russian history he is russia's most brilliant naval strategist of all time he has created the modern soviet navy his book examines the main components of sea power among which attention is focused on the naval fleet of the present day capable of conducting operations and solving strategic tasks in different regions of the world's oceans together with other branches of the armed forces and independently

Naval Policy and Strategy in the Mediterranean

2013-11-05

chronicles the varying policies responsible for the assignment and maintenance of a u.s. naval force in the eastern pacific during the period

The Great Sea War: The Story Of Naval Action In World War II

2015-11-06

drawing on the operational experience of united nations naval peace operations this book examines issues of authority for such operations as they relate to and impact upon the territorial sea

Budgeting for Naval Forces

2001-03-01

naval forces have not yet received the attention they are due for their role in operation desert shield this chronological account offers a unique and as yet unseen level of detail regarding the navy's contribution throughout the operation relying on primary sources whenever possible this book discusses naval decisions in terms of information available to decision makers at the time and presents the pros and cons for alternative courses of action as argued at the time of the original decision it details the navy's role in planning for successful operations its constant vigil against surprise attack and its daily contribution to the maritime interception effort to enforce u.n. economic sanctions against iraq naval forces upheld the sanctions at sea in such a way as to avoid disabling a civilian ship and provided the glue that helped create and maintain the multi-national coalition the complexity of the situation required the naval forces to adapt their command and control to a highly centralized operation which placed unprecedented demands on the navy's communications systems this study provides an insider view of the various plans even those that were not carried out and valuable insights into the personalities of the leading officials sources include first hand observations of the events at comusnavcent where the author had access to nearly all events and decisions hundreds of thousands of messages and other briefing materials the post war analysis done by the center for naval analyses and interviews with almost all of the key players

The Sea Power of the State

2013-10-22

in response to the chief of naval operations cno the national research council appointed a committee operating under the auspices of the naval studies board to study the national security implications of climate change for u.s. naval forces in conducting this study the committee found that even the most moderate current trends in climate if continued will present new national security challenges for the u.s. navy marine corps and coast guard while the timing degree and consequences of future climate change impacts remain uncertain many changes are already underway in regions around the world such as in the arctic and call for action by u.s. naval leadership in response the terms of reference tor directed that the study be based on intergovernmental panel on climate change ipcc scenarios and other peer reviewed assessment therefore the committee did not address the science of climate change or challenge the scenarios on which the committee's findings and recommendations are based national security implications of climate change for u.s. naval forces addresses both the near and long term implications for u.s. naval forces in each of the four areas of the tor and provides corresponding findings and recommendations this report and its conclusions are organized around six discussion areas all presented within the context of a changing climate

Thence Round Cape Horn

1963

what is navy a navy naval force military maritime fleet war navy or maritime force is the branch of a nation s armed forces principally designated for naval and amphibious warfare namely lake borne riverine littoral or ocean borne combat operations and related functions it includes anything conducted by surface ships amphibious ships submarines and seaborne aviation as well as ancillary support communications training and other fields how you will benefit i insights and validations about the following topics chapter 1 navy chapter 2 cruiser chapter 3 hull classification symbol chapter 4 kriegsmarine chapter 5 royal navy chapter 6 naval ship chapter 7 spanish navy chapter 8 united states pacific fleet chapter 9 naval warfare chapter 10 warship ii answering the public top questions about navy who this book is for professionals undergraduate and graduate students enthusiasts hobbyists and those who want to go beyond basic knowledge or information for any kind of navy

Naval Force Levels and Modernization

1971

unlike some other reproductions of classic texts 1 we have not used ocr optical character recognition as this leads to bad quality books with introduced typos 2 in books where there are images such as portraits maps sketches etc we have endeavoured to keep the quality of these images so they represent accurately the original artefact although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy

United Nations Naval Peace Operations in the Territorial Sea

2009

this reports is in pursuance of resolution 38 188 g of 20 december 1983 it consists of a broad introduction to the subject as a whole a description of the principle reasons for the development of the naval community a consideration of applications and uses of naval capabilities it also describes the maritime legal context in particular the effects of the united nations convention on the law of the sea analyses analyses the implications of these factors for international security and the peaceful uses of the sea and attempts to identify possible measures for disarmament and confidence building

Desert Shield at Sea

1999-05-30

at the request of the chief of naval operations the national research council nrc conducted a study to determine the technological requirements operational changes and combat service support structure necessary to land and support forces ashore under the newly evolving navy and marine corps doctrine the committee on naval expeditionary logistics operating under the auspices of the nrc s naval studies board was appointed to 1 evaluate the packaging sealift and distribution network and identify critical nodes and operations that affect timely insertion of fuels ammunition water medical supplies food vehicles and maintenance parts and tool blocks 2 determine specific changes required to relieve these critical nodes and support forces ashore from assault through follow on echelonment and 3 present implementable changes to existing support systems and suggest the development of innovative new systems and technologies to land and sustain dispersed units from the shoreline to 200 miles inland in the course of its study the committee soon learned that development of omfts is not yet at a stage to allow directly detailed answers to many of these questions as a result the committee addressed the questions in terms of the major logistics functions of force deployment force sustainment and force medical support and the fundamental logistics issues related to each of these functions

The U.s. Navy

1985-11-20

u s naval forces must be prepared to respond to a broad array of threats of increasing importance are those from chemical and biological warfare cw and bw to help review its current state of preparedness the chief of naval operations asked the national research council nrc to assess the u s navy s defense capabilities against cw and bw threats in particular to what extent are they being developed to enable naval forces to sense and analyze quickly the presence of chemical and biological agents withstand or avoid exposure to such agents deal with contamination under a broad spectrum of operational conditions and over what period will these capabilities be realized this report presents the results of that assessment it provides an overview of the potential threats and an evaluation of the navy s operations non medical programs and medical

countermeasures designed to confront those threats the report also presents a series of general and specific findings and recommendations based on these assessments

Privateers & Volunteers

1975

the united states must operate successfully in space to help assure its security and economic well being the department of the navy is a major user of space capabilities although those capabilities are now primarily provided by dod the air force and noaa following a dod assessment of national space security management in 2001 the navy commissioned a panel to review space to assess navy space policy and strategy as an extension of that review the nrc was requested by the navy to examine its needs in space for providing future operational and technical capabilities this report presents a discussion of the strategic framework of future space needs the roles and responsibilities for meeting those needs an assessment of navy support to space mission areas and a proposed vision for fulfilling naval forces space needs

National Security Implications of Climate Change for U.S. Naval Forces

2011-05-26

the future national security environment will present the naval forces with operational challenges that can best be met through the development of military capabilities that effectively leverage rapidly advancing technologies in many areas the panel envisions a world where the naval forces will perform missions in the future similar to those they have historically undertaken these missions will continue to include sea control deterrence power projection sea lift and so on the missions will be accomplished through the use of platforms ships submarines aircraft and spacecraft weapons guns missiles bombs torpedoes and information manpower materiel tactics and processes acquisition logistics and so on accordingly the panel on technology attempted to identify those technologies that will be of greatest importance to the future operations of the naval forces and to project trends in their development out to the year 2035 the primary objective of the panel was to determine which are the most critical technologies for the department of the navy to pursue to ensure u s dominance in future naval operations and to determine the future trends in these technologies and their impact on navy and marine corps superiority a vision of future naval operations ensued from this effort these technologies form the base from which products platforms weapons and capabilities are built by combining multiple technologies with their future attributes new systems and subsystems can be envisioned technology for the united states navy and marine corps 2000 2035 becoming a 21st century force volume 2 technology identifies those technologies that are unique to the naval forces and whose development the department of the navy clearly must fund as well as commercially dominated technologies that the panel believes the navy and marine corps must learn to adapt as quickly as possible to naval applications since the development of many of the critical technologies is becoming global in nature some consideration is given to foreign capabilities and trends as a way to assess potential adversaries capabilities finally the panel assessed the current state of the science and technology s t establishment and processes within the department of the navy and makes recommendations that would improve the efficiency and effectiveness of this vital area the panel s findings and recommendations are presented in this report
