Social Work with Children and Their Families

2004

an extensively revised version of the first edition this text focuses on the practical foundational knowledge required to practice social work effectively in the complex and fast changing world of services to children and their families the core organizing framework consists of eight pragmatic perspectives combating adultcentrism family centered practice the strengths perspective respect for diversity and difference the least restrictive alternative ecological perspective organization and financing and achieving outcomes unlike most texts that focus either on direct practice or on policy petr s revised volume integrates current policy including recent reform efforts with best practices the student thus gains a deep appreciation for how direct social work practice is linked to and even guided by contemporary policy initiatives and the values that underscore those initiatives two new chapters are devoted specifically to the fields of child welfare and children s mental health providing an overview of the laws policies practices and terminology pertaining to each setting the next eight chapters focus on each pragmatic perspective and its relevance to child welfare and children s mental health the in depth case studies that comprise the concluding two chapters illustrate how typical client situations can be successfully addressed within the context of the pragmatic perspectives packed with case studies specific practice instruction chapter summaries and suggested learning activities this book prepares students and practitioners to think and act professionally in ways that are consistent with

current laws values policies and reform efforts in the field

Social Work with Adults

2015-10-12

social work with vulnerable adults is becoming increasingly centred on a key piece of legislation the mental capacity act the act provides a framework for protecting the vulnerable while allowing those who may lack capacity to have certain safeguards enshrined in law this book will help support students to learn two things first how the mental capacity act operates and what its key principles are when applied to safeguarding adults and second what are the compassionate skills and values that need to be interwoven with legislative knowledge the authors show how these two principles interact and inform one another and how taking a person centred approach to safeguarding vulnerable adults will mean better outcomes for the individual and our wider society
