DS/ISO Guide 73 2009

International Standard ISO 22301:2019 specifies requirements for an organization to establish, implement, maintain and improve a business continuity management system (BCMS) to address the risks to the organization's ability to continue to deliver products and services under a wide range of circumstances. This standard is applicable to organizations of all sizes and types, and to all sectors. It is designed to be used in conjunction with other ISO standards, such as ISO 9001 and ISO 14001, and to be integrated with other management systems. ISO 22301:2019 is the eighth edition of the standard, replacing ISO 22301:2019.

Risk Management 2010

International Standard ISO/IEC 27701:2019 specifies requirements for an organization to establish, implement, maintain and improve an information privacy management system (IPMS) to address the risks to the organization's ability to deliver products and services under a wide range of circumstances. This standard is applicable to organizations of all sizes and types, and to all sectors. It is designed to be used in conjunction with other ISO standards, such as ISO 9001 and ISO 14001, and to be integrated with other management systems. ISO/IEC 27701:2019 is the first edition of the standard.

Malaysian Standard 2010

International Standard ISO 14001:2015 specifies requirements for an organization to establish, implement, maintain and improve an environmental management system (EMS) to address the risks to the organization's ability to deliver products and services under a wide range of circumstances. This standard is applicable to organizations of all sizes and types, and to all sectors. It is designed to be used in conjunction with other ISO standards, such as ISO 9001 and ISO 14001, and to be integrated with other management systems. ISO 14001:2015 is the third edition of the standard.
